became interested in detailed case studies of enterprise restructuring as I wanted to understand its complex nature and the role of different actors in the restructuring of the automobile industry. In order to achieve this goal I visited dozens of automotive enterprises especially in the Czech Republic, Czechia, to conduct in-depth interviews with key informants. I have also interviewed key informants at ministries, automotive associations, and academia and collected various secondary data and information. This book is the outcome of this work. In this endeavor I have benefited from various support. The University Committee on Research and Creative Activity at the University of Nebraska at Omaha funded three field work sessions in Czechia to conduct interviews and research for this book.
