 James A. Tyner, 2025-05-19 In both literature and film mutants androids and aliens have long functioned as humanity's Other
 nonhuman bodies serving as surrogates to explore humanity's prejudice bigotry and hatred Scholars working in fields of
 feminism ethnic studies queer studies and disability studies among others have deconstructed representations of the Othered
 body and the ways these fictional depictions provide insight into the contested terrains of identity subjectivity and
 personhood In science fiction more broadly and the superhero genre in particular the fictional Other often a superhero or a
 villain is juxtaposed against the normal human and such Others have long been the subject of academic investigation Author
 James A Tyner shifts this scholarly focus to consider the ordinary humans who ally with or oppose Othered superheroes Law
 enforcement officers military officials politicians and the countless nameless civilians are all examples of humans who try to
 make sense of a rapidly changing more than human and other than human universe The resulting volume Mutants Androids

and Aliens On Being Human in the Marvel Cinematic Universe provides a critical posthumanist reading of being human in the Marvel Cinematic Universe MCU Centering the MCU s secondary human characters including Matthew Ellis Ellen Nadeer Rosalind Price as well as Jimmy Woo Sadie Deever Holden Radcliffe and others Tyner considers how these characters attempt to monitor incarcerate or exterminate those beings considered unnatural and thus threatening Placing into conversation posthumanism environmental ethics and myriad philosophical and biological ontologies of life and death Tyner maintains that the superhero genre reflects the current complexities of meaningful life and of what happens in society when the human is no longer the unquestioned normative standard
