*Myth in the Modern Novel* Liisa Steinby, 2023-03-20 *Myth in the Modern Novel* Imagining the Absolute posits a twofold thesis First although Modernity is regarded as an era dominated by science and rational thought it has in fact not relinquished the hold of myth a more primitive form of thought which is difficult to reconcile with modern rationality Second some of the most important statements as to the reconcilability of myth and Modernity are found in the work of certain prominent novelists This book offers a close examination of the work of eleven writers from the late eighteenth century to the beginning of the twenty first representing German French American Czech and Swedish literature The analyses of individual novels reveal a variety of intriguing views of myth in Modernity and offer an insight into the modernizing transformations myth has undergone when applied in the modern novel The study shows the presence of the subconscious the mythic layer in modern western culture and how this has been dealt with in novelistic literature Write with Fire Charles Allen

major and minor literatures showing that such parallel readings may highlight previously unknown components of the literary tradition The book does not hold traditional comparative methods based on verifiable mediations or transactions between national philologies and national literary narratives to be the exclusive standard of interpretation readings can concentrate on common surfaces and textual events instead This is what is meant by post comparative perspectives a term to indicate that the conditions of a comparative reading never precede the reading itself On this basis the present volume points at several possibilities of how a common ground between texts can be created especially because the chapters within it perform parallel readings in highly different ways
