Solutions to Social Problems D. Stanley Eitzen, George Harvey Sage, 2009 This text examines specific cases where states and cities are ahead of the federal government in providing solutions to social problems. States and cities are sometimes ahead of the federal government in providing solutions to social problems. The federal bureaucracy often prefers no change to change. Congress is sometimes paralyzed by party and ideological differences resulting in stagnation. In this vacuum some states provide innovative programs to solve social problems that may be applicable at the federal level. This book examines specific examples of state and local initiatives to solve these representative social problems: undemocratic practices poverty inadequate wages for the working poor unequal educational opportunity by class and race the inadequate and inefficient health care system the environmental crisis and the decaying or inadequate infrastructure.

Crime, Second Chances, and Human Services Fonkem Achankeng, Janet Hagen, 2019-04-03 This book promotes the notion of second chances and the importance of human services within the communities most affected by crime and the criminal justice system. Recognition of the fallibility of humans and the necessity of redemption is the first step to change our attitude toward guilt and punishment. Barring citizens with criminal records from obtaining housing employment education and public benefits like Medicaid and food stamps is not only unjust but unproductive for a human society. The contributors to this volume argue that second chances are a foundational principle of the human services field.
