Storming the Ivory Tower Richard Corcoran, 2024-11-19 A firsthand account of how Richard Corcoran, former education commissioner of Florida, successfully took on powerful progressive interest groups, broke their monopoly, and paved the way for higher education reform across America. Covid alerted the nation to the reality that K-12 schools, private and public alike, were infested with ideologues bent on indoctrinating children. Then, three years after the beginning of the pandemic, the shocking response to Hamas's genocidal assault on Israel made Americans aware that the same tumor had wholly sickened our country's colleges and universities. Now conservatives and increasingly moderates and old-school liberals want to know exactly how the radical left captured higher education. Florida has been the vanguard in the war to restore sanity to higher education. And Richard Corcoran has been one of its commanding generals and racking up wins. When Corcoran was Florida's education commissioner, he was the point person for reopening schools and banning mask mandates. He triumphed. Then he was given a herculean task: remaking a college overrun by radicalism and cancel culture. In 2023, he moved into the president's office in Sarasota, took on a campus mob, and challenged a media firestorm. Just a year later, Corcoran achieved the seemingly impossible. He turned around New College of Florida. Now free speech is protected. Violence and anti-Semitism are abolished. DEI bureaucracy is eliminated. And already, enrollment records are being broken. *Storming the Ivory Tower* is the story of how Corcoran is winning the fight for freedom in hostile territory and how others can join the battle.

Practising Social Work Research Rick Csiernik, Rachel Birnbaum, 2024-06-03 Research skills are as critical to social work practitioners as skills in individual and group counselling, policy analysis, and community development. Adopting strategies similar to those used in direct practice courses, this book integrates research with social work practice and, in so doing, promotes an understanding and appreciation of the research process. The third edition of *Practising Social Work Research* comprises twenty-seven case studies that illustrate different research approaches, including quantitative, qualitative, single subject, and mixed methods. The third edition also adopts a greater equity, diversity, and inclusivity focus than the previous editions. Through the use of applied, real-life examples, the authors demonstrate the processes of conceptualization, operationalization, sampling, data collection and processing, and implementation. Designed to help the student and practitioner become more comfortable with research procedures, *Practising Social Work Research* capitalizes on the strengths that social work students bring to assessment and problem solving.

The Collapse of Venezuela Francisco Rodríguez,2025-03-15 The Collapse of Venezuela documents Venezuela's economic

implosion as politicians adopted strategies that severely harmed the economy in their struggle for power Between 2012 and

2020 Venezuela suffered the largest economic contraction ever documented outside of wartime. This collapse was caused not just by the failure of an economic model but also the deeper failure of its political system to manage the conflicts inherent to a polarized society. *The Collapse of Venezuela* argues that when the stakes of power are high, politicians have an incentive to adopt political strategies that directly harm the economy. Author Francisco Rodríguez describes these scorched earth strategies and shows how politicians used these methods to target the Venezuelan economy in their fight for power. Ultimately, the conflicting sides have trapped the economy in a catastrophic stalemate that has destroyed the country's living standards and turned the economy into a political battlefield. By charting Venezuela's experience with scorched earth politics, Rodríguez reveals an essential cautionary tale for other democracies around the globe.
