The Sovereign Entrepreneur Merrie Gilbert Klapp, 2019-05-15 Capitalist governments around the world however strongly they profess free market principles have become deeply involved in the international market for petroleum What success have they had as oil entrepreneurs and what do their achievements and failures tell us about the nature of the state In The Sovereign Entrepreneur Merrie Gilbert Klapp develops a compelling comparative logic of state oil entrepreneurship Drawing upon dozens of interviews with policymakers

and company executives in Norway Britain Indonesia and Malaysia Klapp addresses a little understood determinant of policy the pivotal bargaining power that domestic and international interests wield in different countries Advanced capitalist countries she finds have generally not achieved their goals in the oil sector they have been constrained by powerful well organized domestic interests Less developed countries by contrast have faced little opposition at home but the international banks and the multinationals have severely limited their attempts to expand into the global petroleum market klapp argues that bureaucratic and domestic politics not just economics underlie the varying success of different countries in the marketplace

Congressional Record United States. Congress,1963 **Sibelius Volume III: 1914-1957** Erik Tawaststjerna,2012-04-19 Erik Tawaststjerna embarked on his monumental and acclaimed study of Jean Sibelius s life and music in 1960 and it occupied him for over a quarter of a century His study differs from other work on the composer in one important respect he had unrestricted access to the composer s papers diaries and letters as well as the advantage of numerous conversations with the composer s widow and other members of the family Thus his researches can justifiably claim to have thrown entirely fresh light on the great Finnish composer Far from the remote personality of the Sibelius legend Sibelius emerges as a highly colourful figure This third volume traces the composer s career from the outbreak of the First World War in 1914 which found him poised on the brink of the Fifth Symphony through to his death in 1957 It traces the genesis of the Fifth Symphony and gives a vivid portrait of Finland during the early years of independence and civil war Tawaststjerna relates in fascinating detail the composer s financial plight during these years and his struggles with his own psyche We follow his career through to the Seventh Symphony and Tapiola and the increasingly corrosive streak of self criticism which blighted Sibelius s last years and resulted in the destruction of the Eighth Symphony Translated by Robert Layton himself a Sibelius specialist this is a compelling and insightful account of the music of one of the twentieth century s greatest composers *The Nation* ,1982-07 **Year Book Covering the Year ...** ,1968 **Computer Gaming World** ,1993
