The Non-Technical Founder Josh MacDonald, 2018-04-03 Everyone has an idea that they think is the next big thing. The problem is it's probably an app or software idea and most people probably don't know how to code and their record for managing programmers is little to none. Even if they do know how to code, they're not quite sure how to get their first one thousand customers. The Non-Technical Founder walks readers through the stages of validating whether their next big thing is good, bringing the idea to life, and getting those first customers.

Film Authorship in Contemporary Transmedia Culture Wikanda Promkhuntong, 2025-10-01 Film Authorship in Contemporary Transmedia Culture: The Paratextual Lives of Asian Auteurs examines film authorship in the transmedia era whereby film directors have become public figures through a wide range of textual material and performative practices. The book draws on the notion of paratext and its related term palimpsest to bring forth the idea of self-reflexive authorship as a method of examining the mediated past, present, and afterlife of East Asian filmmakers. The first part of the book pays attention to materials surrounding film festivals, multi-platform distribution, and cinephile fan creative practices which have been created, rewritten, and shared to foster and problematize the reputations of selected filmmakers. The second part examines alternative modes of self-projections and creative productions that address the filmmakers' sense of selves and relations with the industry and the public. Across different chapters, discourses surrounding film authorship and East Asian cinema are revisited and expanded to highlight its multiple histories and possible futures.

Social Computing and Social Media Adela Coman, Simona Vasilache, 2024-05-31 This book constitutes the refereed proceedings of the 16th International Conference on Social Computing and Social Media (SCSM 2024) held as part of the 26th HCI International Conference (HCII 2024) which took place in Washington, DC, USA during June 29–July 4, 2024. The total of 1271 papers and 309 posters included in the HCII 2024 proceedings was carefully reviewed and selected from 5108 submissions. The SCSM 2024 proceedings were organized in the following topical sections: Part I: Designing, developing, and evaluating social media user experience and user behavior in social media; AI and language models in social media; Part II: Social media in learning, education, and culture; social media in business and e-commerce; Part III: Computer-mediated communication, social media for community, society, and democracy.

Foreign Information Manipulation and Interference David Wright, 2025-12-12 Russia, China, Iran, Saudi Arabia, Turkey, North Korea, and India are engaged in foreign information manipulation and interference (FIMI) in the democratic practices of countries in Europe, America, Africa, and Asia. The Ukraine, in particular, has borne the brunt of information warfare perpetrated by Russia. This book presents 32 case studies of FIMI attacks: who perpetrated them, who they were targeting, the channels that carried their disinformation, the effectiveness of their campaigns, and the countermeasures employed against them. In addition, it includes a synthesis of 20 interviews with experts in disinformation and concludes with findings and recommendations. Uniquely, the book includes a detailed analysis of the tactics, techniques, and procedures (TTPs) used by

attackers and in particular deepfake technologies for text image audio and video deceptions The case studies highlight the proliferation and inventiveness of different TTPs used by FIMI attackers to evade detection and continue to spread their malign messages Key features Offers the first book on foreign information manipulation and interference Examines numerous case studies of FIMI attacks the perpetrators as well as targets Proposes a structured way of conducting FIMI case studies Analyses the TTPs used to sow disinformation and create divisions in society The authors commend this book to FIMI researchers policymakers legislators academics civil society organisations and fact checkers The hope is that it will raise stakeholder and public awareness about the range of tactics that attackers employ and what measures can be effective in countering this insidious and growing threat to democracies Dr David Wright is a Director and Chief Research Officer of Trilateral Research a company he co founded that provides responsible AI in the form of software services and research He coordinates the EU funded ATHENA project November 2023 October 2026

Big Data in Cognitive Science Michael N. Jones, 2016-11-03 The primary goal of this volume is to present cutting edge examples of mining large and naturalistic datasets to discover important principles of cognition and to evaluate theories in a way that would not be possible without such scale It explores techniques that have been underexploited by cognitive psychologists and explains how big data from numerous sources can inform researchers with different research interests and shed further light on how brain cognition and behavior are interconnected The book fills a major gap in the literature and has the potential to rapidly advance knowledge throughout the field It is essential reading for any cognitive psychology researcher

Gaming Democracy Adrienne L. Massanari, 2024-10-29 How play and gaming culture have mainstreamed far right ideology through social media platforms From Gamergate to the ongoing Big Lie the far right has gone mainstream In Gaming Democracy Adrienne Massanari tracks the flames of toxicity found in the far right and alt right movements as they increasingly take up oxygen in American and global society In this pathbreaking contribution to the fields of internet studies game studies and gender studies Massanari argues that Silicon Valley's emphasis on meritocracy and free speech absolutism has driven this rightward slide These ideologies have been coded into social media spaces that implicitly silence marginalized communities and subject them to rampant abuse by groups that have learned to game the ecology of platforms algorithms and attention economies While populist movements are not new phenomena such as QAnon parental rights activism and COVID denialism are uniquely of the internet with supporters demonstrating both technical acumen and an ability to use memes and play as a way of both building community and fomenting dissent Massanari explores the ways that the far right uses memetic humor and geek masculinity as tools both to create a sense of community within these leaderless groups and to obfuscate their intentions Using the lens of play and game studies as well as the concept of metagaming Gaming Democracy is a novel contribution to our understanding of online platforms and far right political activism

Fringe Rhetorics Karen Schroeder Sorensen, 2022-01-04 Fringe Rhetorics Conspiracy Theories and the Paranormal identifies the rhetorical similarities of conspiracy theories and paranormal accounts by delving into rhetorical psychosocial and political science research Identifying something as fringe indicates its proximal placement within accepted norms of contemporary society Both conspiracy theories and paranormal accounts dwell on these fringes and use surprisingly similar persuasive techniques Using elements of the Aristotelian canon as well as Steve Oswald's strengthening and weakening strategies this book establishes a pattern for the analysis of fringe rhetorics It also applies this pattern through rhetorical analyses of several documentaries and provides suggestions for countering fringe arguments
