Study Island requires no software installation and is simultaneously accessible to all students. Students can use it at school, home, or anywhere with an Internet connection.

Dynamic Content

Not only are there thousands of practice items, but each item is constantly changing. The answers to the multiple choice questions continuously alternate position, and the numbers for the math questions are randomly chosen. This compels students to learn the concepts rather than just memorize the answer.

Instant Feedback and Built-In Remediation

Upon answering a question incorrectly, students are shown the correct answer along with a detailed explanation for the correct response. When students need extra help on a specific topic, the Study Island program automatically prompts them to work on remedial-level material for that topic.

Research-Based

Study Island is foundationally and statistically research based. The program has proven effective in increasing student learning and achievement.
