Subalternity And Representation Subalternity And Representation:

Subalternity and Representation John Beverley, 1999-12-22 The term subalternity refers to a condition of subordination brought about by colonization or other forms of economic social racial linguistic and or cultural dominance Subaltern studies is therefore a study of power Who has it and who does not Who is gaining it and who is losing it Power is intimately related to questions of representation to which representations have cognitive authority and can secure hegemony and which do not and cannot In this book John Beverley examines the relationship between subalternity and representation by analyzing the ways in which that relationship has been played out in the domain of Latin American studies Dismissed by some as simply another new fashion in the critique of culture and by others as a postmarxist heresy subaltern studies began with the work of Ranajit Guha and the South Asian Subaltern Studies collective in the 1980s Beverley s focus on Latin America however is evidence of the growing province of this field In assessing subaltern studies purposes and methods the potential dangers it presents and its interactions with deconstruction poststructuralism cultural studies Marxism and political theory Beverley builds his discussion around a single provocative question How can academic knowledge seek to represent the subaltern when that knowledge is itself implicated in the practices that construct the subaltern as such In his search for answers he grapples with a number of issues notably the 1998 debate between David Stoll and Rigoberta Mench over her award winning testimonial narrative I Rigoberta Mench Other topics explored include the concept of civil society Florencia Mallon s influential *Peasant and Nation* the relationship between the Latin American lettered city and the T pac Amaru rebellion of 1780 1783 the ideas of transculturation and hybridity in postcolonial studies and Latin American cultural studies multiculturalism and the relationship between populism popular culture and the national popular in conditions of globalization This critique and defense of subaltern studies offers a compendium of insights into a new form of knowledge and knowledge production It will interest those studying postcolonialism political science cultural studies and Latin American culture history and literature Subalternity and Representation ,2009 DIVA discussion of current debates in cultural and subaltern studies with a particular focus on Latin America that offers the possibility of constituting new political practices div

EMERGENCE OF SUBALTERN CONSCIOUSNESS IN SELECT INDIAN ENGLISH NOVELS: A STUDY Dr. Arun Guleria, *Making Sadza With Deaf Zimbabwean Women* Kirk VanGilder, 2012-09-12 Missiological calls for self theologizing among faith communities present the field of practical theology with a challenge to develop methodological approaches that address the complexities of cross cultural practical theological research Although a variety of approaches can be considered critical correlative practical theology existing methods are often built on assumptions that limit their use in subaltern contexts Kirk VanGilder

addresses these concerns by analyzing existing theological methodologies with sustained attention to a community of Deaf Zimbabwean women struggling to develop their own agency in relation to child rearing practices. He explores a variety of theological approaches from practical theology mission oriented theologians' theology among Deaf communities and African women's theology in relationship to the challenges presented by subaltern communities such as Deaf Zimbabwean women. Rather than frame a comprehensive methodology, VanGilder proposes attitudes and guideposts to reorient practical theological researchers who wish to engender self-theologizing agency in subaltern communities.
