Broadcast Hysteria A. Brad Schwartz, 2025-09-23 On the evening of October 30 1938 radio listeners across the United States heard a startling report of a meteor strike in the New Jersey countryside With sirens blaring in the background announcers in the field

described mysterious creatures terrifying war machines and thick clouds of poison gas moving toward New York City As the invading force approached Manhattan some listeners sat transfixed while others ran to alert neighbors or to call the police Some even fled their homes But the hair raising broadcast was not a real news bulletin it was Orson Welles s adaptation of the H G Wells classic *The War of the Worlds* In *Broadcast Hysteria* A Brad Schwartz boldly retells the story of Welles s famed radio play and its impact Did it really spawn a wave of mass hysteria as *The New York Times* reported Schwartz is the first to examine the hundreds of letters sent to Orson Welles himself in the days after the broadcast and his findings challenge the conventional wisdom Few listeners believed an actual attack was under way But even so Schwartz shows that Welles s broadcast became a major scandal prompting a different kind of mass panic as Americans debated the bewitching power of the radio and the country s vulnerability in a time of crisis When the debate was over American broadcasting had changed for good but not for the better As Schwartz tells this story we observe how an atmosphere of natural disaster and impending war permitted broadcasters to create shared live national experiences for the first time We follow Orson Welles s rise to fame and watch his manic energy and artistic genius at work in the play s hurried yet innovative production And we trace the present day popularity of fake news back to its source in Welles s show and its many imitators Schwartz s original research gifted storytelling and thoughtful analysis make *Broadcast Hysteria* a groundbreaking new look at a crucial but little understood episode in American history

Sondheim s Sweeney Todd The Demon Barber of Fleet Street Explored in detail along the way are the producer s relationship
with playwright Edward Albee whose major plays such as A Zoo Story and Who s Afraid of Virginia Woolf Barr was the first to
produce and his innovative productions of controversial works by playwrights like Samuel Beckett Terrence McNally and
Sam Shepard Crespy draws on Barr s own writings on the theatre his personal papers and more than sixty interviews with

demonstrates a variety of critical methods and approaches He shows how it can be fruitful at different times to consider the

on But if no single approach has special and invariable authority this does not imply critical anarchy Each has its own validity
for different purposes its own strengths and limitations The reader must be versatile and sensitive to a range of possibilities

of flight to Romantic literature Although the Romantic movement and the age of ballooning coincided there has been a
curious and long time tendency to forget that flight was not impossible during this period This study details the importance of
this new technology to Romantic authors primarily English Romantic poets It combines accounts of the exploits and
experiences of early balloonists with references to Romantic texts using ballooning lore to illuminate a range of Romantic
writings The balloonists are seen as not just supplying these writers with a new code of metaphors but as colleagues engaged
in similarly imaginative enterprises The book uncovers an aerial imagination shared by a large number of writers in the
Romantic period that has its origins in the balloon adventures of the 1780s and following two decades It will appeal to
scholars and students of Romantic cultural history as well as those interested in Romantic poetry and the history of early
