Building Socialism Christina Schwenkel,2020-09-21 Following a decade of U S bombing campaigns that obliterated northern Vietnam East Germany helped Vietnam rebuild in an act of socialist solidarity In *Building Socialism* Christina Schwenkel examines the utopian visions of an expert group of Vietnamese and East German urban planners who sought to transform the devastated industrial town of Vinh into a model socialist city Drawing on archival and ethnographic research in Vietnam and Germany with architects engineers construction workers and tenants in Vinh s mass housing complex Schwenkel explores the material and affective dimensions of urban possibility and the quick fall of Vinh s new built environment into unplanned obsolescence She analyzes the tensions between aspirational infrastructure and postwar uncertainty to show how design models and practices that circulated between the socialist North and the decolonizing South underwent significant modification to accommodate alternative cultural logics and ideas about urban futurity By documenting the building of Vietnam s first planned city and its aftermath of decay and repurposing Schwenkel argues that underlying the ambivalent and often unpredictable responses to modernist architectural forms were anxieties about modernity and the future of socialism itself
