09/02/2022 8am	Saw Amy today for an initial consultation regarding her obsessive thoughts and compulsions to clean. Focussed on goal setting and building a history of her present condition. Will see her next week.	
09/02/2022 8am	Amy has had five "cleaning episodes" since our last appointment. She reports these are the most time consuming of her symptoms which she wants to focus on reducing. Amy reports these occur when she is anxious and she feels she has no control over them. We made a plan for her to reach out for help to her safe contact person when she feels one of these episodes coming on.	
09/16/2022 9am	Amy reports an increase in the "cleaning episodes" since our last appointment, reports she had trouble sticking to our plan as her "safe person" was busy and she didn't want to bother them. We have made a plan for her to redirect herself with tasks she enjoys instead.	
09/23/2022 8am	Amy's cleaning episodes have reduced to three since our last appointment. Amy appears brighter and more excited about her future, talking for the first time about moving into a shared house with flatmates once she has her condition under control.	
09/30/2022 9am	Amy reports just two "smaller" cleaning episodes restricted to just her bedroom and not the whole house, since our last appointment. This demonstrates great progress, and she attributes most of this success to practicing her self-redirection and grounding techniques.

Suboxone Therapy Progress Note:

Handbook of Methadone Prescribing and Buprenorphine Therapy Ricardo A. Cruciani, Helena Knotkova, 2014-07-08 Methadone and buprenorphine are the only two opioids that are indicated for the management of both pain and opioid related drug addiction Both present unique challenges to the general practitioner and pain specialist requiring a separate analysis from the rest of the drugs in the same family Handbook of Methadone Prescribing and Buprenorphine Therapy is an invaluable guide to the safe use of these opioids Authored by clinical and academic leaders from a variety of settings and backgrounds this book includes chapters on pharmacology adverse effects safe rotation from other opioids cardiac toxicity prescribing pharmacokinetics equianalgesic dose and replacement therapy This comprehensive text provides clinicians researchers policy makers and academicians a resource for all the relevant points in methadone prescribing and buprenorphine therapy Practical Considerations for the Clinical Use of Buprenorphine: A Reprint from "Science and Practice Perspectives" , *The Treatment of Opioid Dependence* Eric C. Strain, Maxine L. Stitzer, 2006 The successor to Strain and Stitzer's Methadone Treatment for Opioid Dependence Johns Hopkins 1999 this expanded and updated volume reflects new developments in treatment protocols Methadone is still the most widely used medication for the treatment of opioid dependence and the authors provide an extensive section on methadone treatment Three chapters cover the pharmacology and clinical use of buprenorphine as well as the latest research on Naltrexone Clonidine and Lofexidine The volume also includes chapters on pain and prescription opioids as well as medication free treatment and medically supervised alternatives to opioid substitute treatments including withdrawal The Treatment of Opioid Dependence will be a valuable resource for methadone counselors psychiatrists psychologists social workers mental health nurses and addiction counselors as well as physicians interested in office based buprenorphine treatment **Ghodse's Drugs and Addictive Behaviour** Hamid Ghodse, 2010-02-11 This classic text provides a comprehensive accessible overview of substance misuse and dependence with an emphasis on practical and evidence based approaches to the assessment management and prevention of a wide range of drug related problems in a variety of clinical and social settings The book includes definitions of terms and describes the effects and clinical characteristics of all substances of misuse The theoretical background to these topics is clearly explained For the fourth edition every chapter has been revised to include the most up to date information with the latest international data on the extent of the world drug problem There is detailed emphasis on harm minimization AIDS and hepatitis C and entirely new coverage of tobacco addiction and its management This is an essential guide for all healthcare workers health policy specialists counselors and those seeking to train in areas related to addiction and substance misuse *Drugs* Great Britain: Parliament: House of Commons: Home Affairs Committee, 2012-12-10 Whilst it supported a number of steps the Government has taken in its 2010 drug strategy it believes more needs to be done to comprehensively address the drugs problem in the UK The report focuses on the need to break the cycle of drug addiction and highlights in

particular the need for improved treatment in prisons and wider society and for early intervention with better education and preventative work Three key areas were covered prisons treatment and the calling for the establishment of a Royal Commission into the issues The Committee was disturbed to find that almost a quarter of prisoners found it easy to get drugs in prison and recommended that measures such as regular random drug tests based on suspicion be increased It was concerned that the Government's policy of recovery was not being implemented in particular that drug rehabilitation in prison was undermined by the lack of support for offenders on release and did not take into account prescription drug addiction The Committee is also concerned that the goal of retaining addicts in treatment has precluded attempts at recovery It supported the Government's objective of recovery but noted that this will require a range of treatment options with each individual needing a tailored treatment plan The Committee highlighted residential rehabilitation and the use of buprenorphine as an alternative to methadone as two treatment methods which were currently under utilised Treatment must also be supplemented by housing training and employment support if required
