Egert, 2019-11-18 This book is the first study of its kind that reveals the social justice linkages between three unique characteristics of the highly pathogenic avian influenza H5N1 virus namely veterinary scourge public health contagion fear and potential bioterrorist weapon With its extensive referencing it will be invaluable for scholars of security studies global public health and international relations as well as for professionals diplomats and practitioners with an interest in the relationship between global health security and social justice Comprised of two major sections the book examines the various representations of knowledge about the H5N1 virus The first part explores the three major narratives that were used to describe the virus during its 20 year journey from 1996 to 2016 During this time the virus multiplied its ontological status through narratives that described a localized animal virus a global public health crisis and finally an irrational contagion fear The text s second section describes in detail a unique aspect of the H5N1 virus s journey as an emerging infectious disease its representation as a potential weapon for bioterrorists As a result the US government attempted to secure knowledge about the H5N1 virus This attempt produced a global debate between scientists and policy makers over how to balance the nation state s desire for security with the life sciences tradition of openly shared research Known as the dual use dilemma this debate set up binaries of impossible reconciliation between the scientific and security communities This book argues that the H5N1 dual use dilemma obscures larger questions of justice and proposes a new concept of justice knowledge justice as an alternate more globally inclusive framework for exploring a socially just way out of the dilemma *Pulp* Scott McCracken, 2024-07-30 Pulp brings together in one volume chapters on the best seller detective fiction popular romance science fiction and horror It combines a lucid and accessible account of the cultural theories that have informed the study of popular fiction with detailed readings of Jackie Collins Jilly Cooper Colin Dexter William Gibson Stephen King Iain Banks Terry McMillan and Walter Mosley Scott Mc Cracken argues that popular fiction serves a vital function it provides us with the means to construct a workable sense of self in the face of the disorientating pressures of modernity *Diplomacy, Society and the COVID-19 Challenge* Erman Akılı, Burak Güneş, Ahmet Gökbel, 2023-10-20 Diplomacy Society and the COVID 19 Challenge brings together authors from various disciplinary backgrounds to examine the impacts of the pandemic on world politics and international relations focusing on diplomacy and national regional and global responses to COVID 19 The authors adopt a critical perspective which questions the general assumption that security is only related to state security The
