An Open Book: What and How Young Children Learn From Picture and Story Books Jessica S. Horst, Carmel Houston-Price, 2016-01-21 Looking at and listening to picture and story books is a ubiquitous activity frequently enjoyed by many young children and their parents Well before children can read for themselves they are able to learn from books Looking at and listening to books increases children s general knowledge understanding about the world and promotes language acquisition This collection of papers demonstrates the breadth of information pre reading children learn from books and increases our understanding of the social and cognitive mechanisms that support this learning Our hope is that this Research Topic eBook will be useful for researchers as well as educational practitioners and parents who are interested in optimizing children s learning

Reading Development and Difficulties in Monolingual and Bilingual Chinese Children Xi Chen, Qiuying Wang, Yang Cathy Luo, 2013-11-04 This volume explores Chinese reading development focusing on children in Chinese societies and bilingual Chinese speaking children in Western societies The book is structured around four themes psycholinguistic study of reading reading disability bilingual and biliteracy development and Chinese children s literature It discusses issues that are pertinent to improving language and literacy development and complex cognitive linguistic and socio cultural factors that underlie language and literacy development In addition the book identifies instructional practices that can enhance literacy development and academic achievement This volume offers an integrative framework of Chinese reading and deepens our understanding of the intricate processes that underlie Chinese children s literacy development It promotes research in reading Chinese and celebrates the distinguished and longstanding career of Richard C Anderson

Giving Our Children a Fighting Chance Susan B. Neuman, Donna C. Celano, 2015-04-25 This is a compelling eye opening portrait of two communities in Philadelphia with drastically different economic resources Over the course of their 10 year investigation the authors of this important new work

came to understand that this disparity between affluence and poverty has created a knowledge gap far more important than mere achievement scores with serious implications for students economic prosperity and social mobility At the heart of this knowledge gap is the limited ability of students from poor communities to develop information capital This moving book takes you into the communities in question to meet the students and their families and by doing so provides powerful insights into the role that literacy can play in giving low income students a fighting chance Important reading for a wide audience of educators policymakers school reformers and community activists

Giving Our Children a Fighting Chance Documents how inequalities begin early and are reinforced by geographic concentration Compares community libraries to see how print is used in each neighborhood and how children develop as young readers Looks at patterns that create radical differences in experiences and attitudes toward learning prior to entering school Explores the function of technology as a tool that exacerbates the divide between affluent students and those with limited access to information Provides a comprehensive analysis of community literacy documenting the transformation of media habits from books to computers Concludes with a look inside schools to answer questions about what schools can do to overcome this complex unequal playing field Susan B Neuman is a professor of Educational Studies at the University of Michigan and has served as the U S Assistant Secretary for Elementary and Secondary Education Her books include *Changing the Odds for Children at Risk* Donna C Celano is assistant professor of Communication at La Salle University in Philadelphia *Giving Our Children a Fighting Chance* depicts a stark reality the enormous and growing divide in literacy and reading skill development between children growing up in poverty and children from the middle and upper classes and the social and economic ramifications This book should be required reading not just for those in the education and policy fields but for anyone who cares about the lives of children and the health of our society

Kyle Zimmer President and CEO *First Book* By walking the streets riding the buses and taking the subways Celano and Neuman give us a groundbreaking and sobering look at print and education technology resources in two neighborhoods one wealthy and one poor The result is a must read eye opener for anyone who cares about equal opportunity The stuff of learning is essential but insufficient Only with close teacher parent and student to student coaching can better print and technology resources make a difference

Eugenia Kemble Executive Director **Albert Shanker Institute** The authors of this text make you CARE about these communities and children They provide insights about how we must focus on literacy in order to make a real difference in the lives of students This is one of the most comprehensive analyses to date of community literacy documenting the transformation of media habits from books to computers

Linda B Gambrell Distinguished Professor of Education **Clemson University**

Born Reading Jason Boog, 2014-07-15 A program for parents and professionals on how to raise kids who love to read featuring interviews with childhood development experts advice from librarians tips from authors and children s book publishers and reading recommendations for kids from birth up to age five Every parent wants to give his or her child a competitive advantage In *Born Reading* publishing insider and new dad Jason Boog explains how that

can be as simple as opening a book. Studies have shown that interactive reading, a method that creates dialogue as you read together, can raise a child's IQ by more than six points. In fact, interactive reading can have just as much of a determining factor on a child's IQ as vitamins and a healthy diet. But there's no book that takes the cutting edge research on interactive reading and shows parents, teachers, and librarians how to apply it to their day-to-day lives with kids. Until now, *Born Reading* provides step-by-step instructions on interactive reading and advice for developing your child's interest in books from the time they are born. Boog has done the research, talked with the leading experts in child development, and worked with them to compile the *Born Reading Essential Books* lists, offering specific titles tailored to the interests and passions of kids from birth to age five. But reading can take many forms: print books as well as ebooks and apps. *Born Reading* also includes tips on how to use technology the right way to help, not hinder, your child's intellectual development. Parents will find advice on which educational apps best supplement their child's development, when to start introducing digital reading to their child, and how to use tech to help create the readers of tomorrow. *Born Reading* will show anyone who loves kids how to make sure the children they care about are building a powerful foundation in literacy from the beginning of life.

A Parent's Guide to Reading with Your Young Child Susan B. Neuman, Tanya S. Wright, 2006-04 A guide for parents on reading to their children offers specific title suggestions, discusses what type of books to read, and describes how, when, and where to read to each of five age groups, from newborns to five-year-olds.

Teaching Young Children: Choices In Theory And Practice Mac Naughton, Glenda, Williams, Gillian, 2008-11-01 This book presents early childhood students and staff with a broad and diverse range of teaching techniques to support children's learning. It examines 26 techniques, ranging from simple ones such as describing and listening to more complex methods such as deconstruction and scaffolding. The strategies selected are derived from the best current research knowledge about how young children learn. A detailed evaluation of each strategy enables childcare staff, early childhood teachers, and students to expand their repertoire of teaching strategies and to critically evaluate their own teaching in early childhood settings. Vignettes and examples show how early childhood staff use the techniques to support children's learning and help to bring the discussion of each technique to life. Revised and updated in light of the latest research, new features include: Coverage of the phonics debate; Addition of ICT content; Questions for further discussion; Revision to the chapter on problem solving. Updated referencing throughout. *Teaching Young Children* is key reading for students and experienced early childhood staff working in diverse settings with young children.

Literature and Literacy for Young Children Cyndi Giorgis, 2024-01-22 The 8th edition of this bestselling text provides a framework and instructional strategies for identifying, selecting, and teaching high-quality children's literature for ages 0-8. This new edition's emphasis on diverse literature will assist in positively impacting the lives of all young people. Effective instructional approaches for using literature as a teaching tool are coupled with developmentally appropriate methods for sharing literature with young children. This book is a foundational text for graduate and undergraduate students in early childhood

education early literacy literacy methods children s literature and literature instruction
