Black Capitalists Rachel Laryea, PhD, 2025-06-10 A groundbreaking look at how Black visionaries from Wall Street to Lagos and beyond are reimagining capitalism to benefit the needs of Black people and ultimately everyone. *Black Capitalists* is a dive into the history of how money is made and our attitudes about wealth. A must read. Vanessa Williams, singer, actress, author, producer and former Miss America. To many, the term *Black Capitalists* is oxymoronic. Black people were the labor force that built the infrastructure of American capitalism through the violent enforcement of legalized slavery, so they cannot and should not aspire to be the beneficiaries of it. But Wall Street professional and Yale-educated anthropologist Dr. Rachel Laryea poses a provocative question: What if there was a way to thrive within capitalism without diminishing someone else's life chances through exploitative practices? There is, and *Black Capitalists* are showing us how. Told through Dr. Laryea's own compelling narrative growing up the child of a single mother who immigrated to the United States from Ghana and rose to the Ivy League and on Wall Street with original on-the-ground reporting and rigorous historical analysis, *Black Capitalists* challenges readers to reconsider who gets to be the beneficiary of capitalism and reckons with the responsibility that comes with using the tools of our imperfect economic system to advance social good. Dr. Laryea reveals in detail how race profoundly shapes the way we participate in capitalism and how understanding these differences can guide us toward a more inclusive and equitable future. From newly minted undergraduates who find themselves working twenty-hour days to prove their worth on Wall Street to Nigerian startup founders working to build global credit scores spanning the streets of Accra to the boardrooms of Goldman Sachs, *Black Capitalists* stories and analysis of innovators who are as ambitious as they are altruistic demonstrate the resilience, creativity and ingenuity of Black people who have long been excluded from the full benefits of the American economic system. At its core, *Black Capitalists* shows a more productive and more inclusive way forward.

What happens when our cultural and artistic lives are dictated to us by an algorithm? What does it mean when shareability supersedes innovation? How can we make a choice when the options have been so carefully arranged for us? From coffee shops to city grids to TikTok feeds and Netflix homepages, the world over, algorithmic recommendations prescribe our experiences. This network of mathematically determined choices the Filterworld has taken over almost unnoticed as we've grown accustomed to an insipid new normal. But to have our tastes, behaviours and emotions governed by computers calls the very

notion of free will into question Internationally recognized journalist and New Yorker staff writer Kyle Chayka journeys through this ever tightening web woven by algorithms He explores how online and offline spaces alike have been engineered for seamless consumption How the lowest common denominator is promoted at the expense of the complex diverse or challenging How users of technology contend with data driven equations that promise to anticipate their desires but often get them wrong How the Filterworld is determining the very shape of culture itself Chayka skilfully and compellingly traces this creeping machine guided curation that influences not just what culture we consume but what culture is produced In doing so he attempts to answer to the most urgent question currently facing us is personal freedom ever again possible on the Internet Filterworld is a fascinating history of the rise of the algorithm and an important investigation into where it could take us next if we let it
