Real-Life Spaces of Jewish Europe in the 21st Century Maja Hultman, Joachim Schlör, 2025-10-06 The first decades of the 21st century have presented numerous challenges for European Jewry far right movements and a rise of antisemitism a global pandemic and a war on European soil At the same time heritage sites commemorating the Jewish past and the use of digital platforms to create new forms of communication and cultural co-construction are growing Using a variety of spaces heritage sites museums digital practices urban topography and communal activities as case studies this collective volume analyses whether they might serve as a reminder that despite moments of crisis Jewish life in Europe persists The spatial analysis offered by the volume uses the concept of virtuality as a starting point thereby engaging anew with spatial concepts laid out by scholars in the 1990s Now 30 years later prompted by today's political social and cultural European landscape as

well as the increasing role of digitization the authors discuss the meaning of virtuality and how it relates to notions of authenticity and reality in Jewish culture and in Jewish non Jewish relations As such the book provides a fresh take on and a new way forward for the conceptualizations and applications of space which together offer particularly useful avenues to access power relations identity re constructions and performative aspects of the European Jewish experience
