

On the Visibility of Literary Translators Working from Smaller Languages into English: Some Observations from the United Kingdom

Antony HOYTE-WEST
Independent scholar, United Kingdom

Abstract: *The present article explores the current situation regarding the visibility of literary translators – and consequently, of literary translation – within the general British context, focusing specifically on those translators working from smaller languages into English. Expanding on the author’s previous research on the topic, the current study employs a desk-based approach to firstly present and outline a translator-focused overview of several British literary translation prizes. These include prominent awards such as the Booker International Prize, the Oxford-Weidenfeld Translation Prize, the Warwick Prize for Women in Translation, and also the EBRD Literature Prize, which was set up to draw attention to works from various literatures which were previously not so well-known in the United Kingdom. Subsequently, the range of in-country training courses available for literary translators will be highlighted, noting specific aspects relating to the availability and promotion of smaller languages. Lastly, a snapshot of the current situation regarding the wider visibility of literary translators in the broader British context will be provided, including with reference to current moves towards crediting the work’s translator on the front cover of published volumes.*

Keywords: *literary translation; translation prizes; translation profession; literary translator education; literary translators; translator visibility; United Kingdom;*

Introduction

As a key component of the way that literary texts are disseminated and transmitted, the act and practice of translation remains of paramount importance. This was encapsulated succinctly in the observations of the late American theorist Susan Sontag in her 2002 St Jerome Lecture on Literary Translation, where she emphasised that “translation is the circulatory system of the world’s literatures” (Sontag). Over the last three decades, there has been expanding interest in the historical and sociological background of the people – literary translators – who do this kind of work for a living. As Peter France and Stuart Gillespie observe in the opening pages of the multi-volume *Oxford History of Literary Translation into English*, “the history of translation is also the history of translators” (France, Gillespie vii). However, echoing the title of the eminent scholar Lawrence Venuti’s influential 1995 book *The Translator’s Invisibility: A History of Translation*, these translators have not always been visible (Venuti “The Translator’s Invisibility”), although nowadays there are
