Space Opera Saga Quick Start:

The Readers' Advisory Guide to Genre Fiction, Third Edition Neal Wyatt, Joyce G. Saricks, 2019-07-03 Everyone's favorite guide to fiction that's thrilling, mysterious, suspenseful, thought provoking, romantic, and just plain fun is back and better than ever in this completely revamped and revised edition. A must for every reader's advisory desk, this resource is also a useful tool for collection development librarians and students in LIS programs. Inside RA experts Wyatt and Saricks cover genres such as Psychological Suspense, Horror, Science Fiction, Fantasy, Romance, Mystery, Literary, and Historical Fiction, and introduce the concepts of Adrenaline and Relationship Fiction. Includes everything advisors need to get up to speed on a genre, including its appeal, characteristics, key authors, sure bets, and trends. Demonstrates how genres overlap and connect, plus suggestions for guiding readers among genres and tie genre fiction to the whole collection, including nonfiction, audiobooks, graphic novels, film, and TV, poetry, and games. Both insightful and comprehensive, this matchless guidebook will help librarians become familiar with many different fiction genres, especially those they do not regularly read, and aid library staff in connecting readers to books they're sure to love. Sequels Janet G. Husband, Jonathan F. Husband, 2009 A guide to series fiction lists popular series, identifies novels by character, and offers guidance on the order in which to read unnumbered series. Bloomsbury Good Reading Guide Nick Rennison, 2009-01-01 Deciding what to read next when you've just finished an unputdownable novel can be a daunting task. The Bloomsbury Good Reading Guide features hundreds of authors and thousands of titles with navigation features to lead you on a rich journey through some of the best literature to grace our shelves. This greatly expanded edition includes the latest contemporary authors and landmark novels, an expanded non-fiction section, a timeline setting historical events against literary milestones, prize winner and book club lists. An accessible and easy to read guide that no serious book lover should be without. The essential guide to the wild, uncharted world of contemporary and 20th century writing. Robert McCrum, The Observer. H2LiftShips - Beyond Luna Bob Freeman, 2021-03-24 H2LiftShips, a tech manual for a future. Imagine a world exactly like ours, but different. You all knew we would settle on Luna and start mining the Asteroid belt. Mars, dry, dusty, with thin, unbreathable air, is just a prison planet with the added hell of lawyers and accountants in charge. Asteroid groups are unified in their desire for independence, to try different governance methods. It may not be our future, but it is a future we can get behind. Travel the solar system on solar sail ships. Meet hard-working sentients, humans, canines, simians, and octopuses plying our heliosphere for fun and profit. You won't find any exploding rockets, evil aliens, laser blasters, or sparking computers. Instead, you'll find hacked comm lines, buried Luna casinos, pirates, dust balls, and weaponized beef jerky. And after your cruise through the Asteroid belt, Mars, and Luna, settle down on Earth for a party in the desert. They'll bring the Carne Asada burritos; you bring the fun. No matter what regime is in charge, Gig workers have to jump from job to job, trying to earn enough for food, shelter, air, and waste disposal. Welcome. Join humans, simians, canines, and octopuses in our new future, gigging and living in the void. Motion Pictures From the Fabulous 1970's Terry
