Competent business leadership drives profit but there is more and it is important to know especially during these trying times. If business leadership is practiced with a value based foundation its demonstrated impact on business performance is much greater. As human beings are the most treasured business asset business leaders practice values that maintain the asset by creating relationship harmony and trust fostering collaborative learning to realize individual and collective potential and developing the organization as a united community. But a business leadership model must also reflect respect for the unique cultural context in which the business operates which is why author Stanley Remple argues the need for improved development of Chinese business leadership development. The dominant individualistic and technical Western approach to and practice of leadership development doesn't serve the needs of Chinese business leaders very well. And it creates new avoidable challenges. Enter *Leadership Wisdom for Businesses in China* a powerful four book series that examines natural law based values for business leadership within the rich Chinese traditional and current cultural context. Based on these values Remple outlines ten key leadership responsibility areas and supporting operating principles for each responsibility area to realize business leadership improvements. Much more than a theoretical overview of business leadership this book series offers a roadmap for developing both self leadership and business leadership within a whole company. Both are essential. Supported by an experienced Chinese project team consisting of researchers educators writers and editors business leaders and other stakeholders this culturally relevant book series has been written for English and Mandarin speaking business leaders and entrepreneurs leadership consultants and trainers and post secondary leadership programs in China.
