"Before I move from the garden to the next, I must let you know of a secret that will offer you great aid in your personal growth. This secret is based on the ancient principle that everything is always created twice, first in the mind and then in reality. I have shared already that thoughts are things, material messengers that we send out to influence our physical world. I have also informed you that if you hope to make remarkable improvements in your outer world you must first start within and change the caliber of your thoughts.

"The Sages of Sivana had a wonderful way to ensure that their thoughts were pure and wholesome. This technique was also highly effective in transforming their desires, however simple, into reality. The method will work for anyone. It will work for a young lawyer who seeks financial abundance just as it will work for a mother seeking a richer family life or a salesperson seeking to close more sales. The technique was known to the sages as the Secret of the Lake. To apply it, these teachers would rise at 4:00 a.m., as they felt that the early morning possessed magical qualities from which they could benefit. The sages would then travel along a series of steep and narrow mountain paths that eventually led them to the lower reaches of the region they inhabited. Once there, they would walk along a barely visible trail lined with magnificent pine trees and exotic flowers until they arrived at a clearing. At the edge of the clearing was an aqua blue lake covered by thousands of tiny white lotuses. The water of the lake was so clear that the bottom was visible. Truly a miraculous sight. Get it now. *Reading Bestsellers* Danielle Fuller, DeNel Rehberg Sedo, 2023-04-27 Readers are essential agents in the production of bestsellers, but bestsellers are not essential to readers' leisure pursuits. The starting point in this Element is readers' opinions about and their uses of bestselling fiction in English. Readers' relationships with bestsellers bring into view their practices of book selection and their navigation of book recommendation culture. Based on three years of original research (2019-2021) including a quantitative survey with readers, interviews with social media influencers, and qualitative work with international Gen Z readers in a private Instagram chat space, the authors highlight three core actions contemporary multimodal readers make: choosing, connecting, and responding in a transmedia era where on- and offline media practices co-exist. The contemporary multimodal reader, or the MMR3, they argue, illustrates the pervasiveness of recommendation culture, reliance on trusted others, and an ethic of responsiveness.
