Strategic Intelligence for the Future 1 Henri Dou, Alain Juillet, Philippe Clerc, 2019-04-30 Information in all its forms is at the heart of the economic intelligence process It is also a powerful vector of innovation and more than ever a balance between economic and societal forces Strategic Intelligence for the Future 1 analyzes the need for the French economic intelligence to mutate in order to develop the economy strengthen social cohesion and protect vital interests This mutation requires a change of attitudes and a new way of thinking widely open to global change and new technologies The focus of the French economic intelligence on conventional objectives such as business and the economy does not allow for the integration of its multiple possible fields and thus its global nature The strategy foresight and temporal dynamics necessary to the

understanding of the world and the new balance of power and control of complex situations have thus increased the time needed to put this in place Both theoretical and practical this book provides a basis from which to develop enhanced economic intelligence leading to the implementation of global security

Marketing Intelligent Systems Using Soft Computing Jorge Casillas, Francisco J. Martínez-López, 2010-09-30 Dr Jay Liebowitz Orkand Endowed Chair in Management and Technology University of Maryland University College Graduate School of Management Technology 3501 University Boulevard East Adelphi Maryland 20783 8030 USA jliebowitz umuc edu When I first heard the general topic of this book Marketing Intelligent Systems or what I ll refer to as Marketing Intelligence it sounded quite intriguing Certainly the marketing field is laden with numeric and symbolic data ripe for various types of mining data text multimedia and web mining It s an open laboratory for applying numerous forms of intelligentsia neural networks data mining expert systems intelligent agents genetic algorithms support vector machines hidden Markov models fuzzy logic hybrid intelligent systems and other techniques I always felt that the marketing and finance domains are wonderful application areas for intelligent systems and this book demonstrates the synergy between marketing and intelligent systems especially soft computing Interactive advertising is a complementary field to marketing where intelligent systems can play a role I had the pleasure of working on a summer faculty f lowship with R GA in New York City they have been ranked as the top inter tive advertising agency worldwide I quickly learned that interactive advertising also takes advantage of data visualization and intelligent systems technologies to help inform the Chief Marketing Officer of various companies Having improved ways to present information for strategic decision making through use of these technologies is a great benefit
