muscles won't work and when you're sure they won't work test them and make sure they won't work test them get complete relaxation in those muscles around the eyes now let that feeling of relaxation go right down to your toes in a moment we're going to do this again and when we do it a second time you're going to be able to relax ten times as much as you're relaxed already now open your eyes close your eyes completely relax let yourself be covered with a blanket of relaxation now the third time we do it you'll be able to double the relaxation which you have open your eyes now relax I'm going to lift your hand and drop it and if you've followed instructions up to this point that hand will be just as limp as a dishrag and will just plop into your lap let me lift it don't you lift it let it be heavy that's good but let's open and close the eyes again and double that relaxation and send it right down to your toes let that hand be as heavy as lead you'll feel it when you've got the relaxation now you've got it you could feel that couldn't you that's complete physical relaxation but I want to show you how you can get mental relaxation as well as physical so I'm going to ask you to start counting when I tell you to from a hundred backwards each time you say a number double your relaxation and by the time you get down to ninety eight you'll be so relaxed there won't be any more numbers start with the idea of making that happen and watch it happen count out loud please 100 double your relaxation and watch the numbers start disappearing 99 watch the numbers start disappearing 98 now they'll be gone make it happen you've got to do it I can't do it make them disappear dispel them make them vanish At this point the subject participation gets quite intense Below is a modified Elman induction complete with integrated deepener's Take a nice deep breath and hold it Hope you enjoyed this sample of part of the E's HAPPY READING And of course HAPPY ZAPPING
