Street Smart Richard Aloysius Blake, 2005-01-01 New York has appeared in more movies than Michael Caine and as a result of overfamiliarity the City poses a problem for critics and casual moviegoers alike Audiences mistake the New York image of skyscrapers and glitter for the real thing but in fact the City is a network of small villages each with its unique personality *Street Smart* offers a novel approach to understanding the cultural influences of New York's neighborhoods on the work of four quintessentially New York filmmakers Sidney Lumet Woody Allen Martin Scorsese and Spike Lee The city's diverse economic and ethnic enclaves where people live work shop worship bank and go to school often have little relationship to the concept of New York City created by the movies Their New York however is as real as the smell of fried onions in the stairwell of an apartment building and it is this New York not the movie New York that has left its impression on their films Lumet Allen Scorsese and Lee's imaginations have been shaped by their neighborhoods not the New York of the movies In turn these directors have used their own life experiences to shape their films Richard A Blake examines their home villages from Flatbush and Fort Green in Brooklyn to the Lower East Side of Manhattan to enrich our critical understanding of the films of four of America's most accomplished contemporary filmmakers *Street Smart* Samuel I Schwartz, 2015-08-18 On a Saturday morning in December 1973 a section of New York's West Side Highway collapsed under the weight of a truck full of asphalt The road was closed seemingly for good and the 80 000 cars that traveled it each day had to find a new way to their destinations It ought to have produced traffic chaos but it didn't The cars simply vanished It was a moment of revelation the highway had induced the demand for car travel It was a classic case of build it and they will come but for the first time the opposite had been shown to be true knock it down and they will go away Samuel I Schwartz was inspired by the lesson He started to reimagine cities most of all his beloved New York freed from their obligation to cars Eventually he found he was not alone Since the turn of the twenty first century a surreptitious revolution has taken place every year Americans are driving fewer miles And the generation named for this new century the Millennials are driving least of all Not because they can't afford to they don't want to They have better ideas for how to use their streets An urban transformation is underway and smart streets are at the heart of it They will boost property prices and personal fitness roll back years of congestion and smog and offer a transformative experience of American urban life From San Francisco to Salt Lake Charleston to Houston the American city is becoming a better and better place to be Schwartz's *Street Smart* is a dazzling and affectionate history of the struggle for control of American cities and an inspiring off road map to a more vibrant active and vigorous urban future *Street Smart* Jamison Jo Medby, Russell W. Glenn, 2002-10-16 Intelligence preparation of the battlefield IPB the Army's traditional methodology for finding and analyzing relevant information for its operations is not effective for tackling the operational and intelligence challenges of urban operations The authors suggest new ways to categorize the complex terrain infrastructure and populations of urban environments and incorporate this information into
