African Studies in the Academy Mawere, Munyaradzi, Mubaya, Tapuwa R., 2017-08-09 For a long time African Studies as a discipline has been spearheaded by academics and institutions in the Global North. This puts African Studies on the continent at a crossroads of making choices on whether such a discipline can be legitimately accepted as an epistemological discipline seeking objectivity and truth about Africa and the African peoples or a discipline meant to perpetuate the North's hegemonic socio-economic, political and epistemic control over Africa. The compound question that immediately arises is: Who should produce what and which space should African Studies occupy in the academy, both of the North and of the South? Confronted by such a question, one wonders whether the existence of African Studies Centres in the Global North academics open opportunities for critical thinking on Africa or it opens possibilities for the emergence of the same discipline in Africa as a fertile space for transdisciplinary debate. While approaches critical for the development of African Studies are pervasive in African universities through fields such as cultural studies, social anthropology, history, sociology, indigenous knowledge studies and African philosophy, the discipline of African Studies, though critical to Africa, is rarely practiced as such in the African academy and its future on the continent remains bleak. *African Studies in the Academy* is a testimony that if honestly and objectively practiced, the crossroads position of African Studies as a discipline makes it a fertile ground for generating and testing new approaches critical for researching and understanding Africa. It also challenges Africa to seriously consider assuming its legitimate position to champion African Studies from within. These issues are at the heart of the present volume.

The New Witches Aaron K.H. Ho, 2021-07-13 After *Charmed* ended in 2006, witches were relegated to sidekicks of televisual vampires or children's programs. But during the mid-2010s, they began to resurface as leading characters in shows like the immensely popular *The Chilling Adventures of Sabrina*, the *Charmed* reboot, *Salem*, *American Horror Story: Coven*, and the British program *A Discovery of Witches*. No longer sweet, feminine, domestic, and white, these witches are powerful, diverse, and transgressive, representing an intersectional, third-wave feminist vision of the witch. Featuring original essays from noted scholars, this is the first critical collection to examine witches on television from the late 2010s. Situated in the aftermath of the MeToo movement, essays examine the reemergence and shifting identities of TV witches through the perspectives of intersectional gender studies, hauntology, politics, morality, monstrosity, violence, queerness, disabilities, rape, ecofeminism, linguistics, family, and digital humanities.

The Witch Studies Reader Soma Chaudhuri, Jane Ward, 2025-02-21 Stories about witches are by their nature stories about the most basic and profound of human experiences healing sex violence tragedies aging death and encountering the mystery and magic of the unknown It is no surprise then that witches loom large in our cultural imaginations In academia studies of witches rarely emerge from scholars who are themselves witches and or embedded in communities of witchcraft practitioners The Witch Studies Reader brings together a diverse group of scholars
