Local Government Reorganisation Steve Leach, 2013-07-23 The Local Government Review raised issues of political process and decision making theories The interest lies in the insights provided by academic analysis and the highlighting of the lessons to be learned This volume attempts to respond to both these perspectives Paradigms in Word Formation Alba E. Ruz, Cristina Fernández-Alcaina, Cristina Lara-Clares, 2022-09-15 The focus of Paradigms in Word Formation Theory and applications is on the relevance of paradigms for linguistic description Paradigmatic organization has traditionally been considered an inherent feature of inflectional morphology but research in the last decades clearly shows the existence of paradigms in word formation especially in affixal derivation often at the expense of other word formation processes This volume seeks to address the role that paradigms may play in the description of compounding conversion and participles This volume should be of interest to anyone specialized in the field of English morphology and word formation *Light Metals 2018* Olivier Martin, 2018-01-31 The Light Metals symposia at the TMS Annual Meeting Exhibition present the most recent developments discoveries and practices in primary aluminum science and technology The annual Light Metals volume has become the definitive reference in the field of aluminum production and related light metal technologies The 2018 collection includes papers from the following symposia 1 Alumina and Bauxite 2 Aluminum Alloys Processing and Characterization 3 Aluminum Reduction Technology 4 Cast Shop Technology 5 Cast Shop Technology Energy Joint Session 6 Cast Shop Technology Fundamentals of Aluminum Alloy Solidification Joint Session 7 Cast Shop Technology Recycling and Sustainability Joint Session 8 Electrode Technology for Aluminum Production 9 Perfluorocarbon Generation and Emissions from Industrial Processes 10 Scandium Extraction and Use in Aluminum Alloys **Ubiquitous Computing and Ambient Intelligence** Jose Bravo, Diego López-de-Ipina, Francisco Moya, 2012-11-28 This book constitutes the refereed proceedings of the 6th International Conference on Ubiquitous Computing and Ambient Intelligence UCAmI 2012 held in Vitoria Gasteiz Spain in December 2012 The 70 research papers were carefully reviewed and selected from various submissions The main focus of this book has been to explore how Ambient Intelligence can contribute towards smarter but still more sustainable environments Beyond sustainable computing the proceedings also include research work describing progress on other key research topics for AmI such as human environment mobile mediated through NFC or AR interaction artificial intelligence techniques to foster user and context aware environment adaptation future internet trends such as social networks analysis linked data or crowd sourcing applied to AmI internet connected object ecosystems collaborating to give place to smarter environments *Large Time Asymptotics for Solutions of Nonlinear Partial Differential Equations* P.L. Sachdev, Ch. Srinivasa Rao, 2009-10-29 A large number of physical phenomena are modeled by nonlinear partial differential equations subject to appropriate initial boundary conditions these equations in general do not admit exact solution The present monograph gives constructive mathematical techniques which bring out large time behavior of solutions of these model

equations These approaches in conjunction with modern computational methods help solve physical problems in a satisfactory manner The asymptotic methods dealt with here include self similarity balancing argument and matched asymptotic expansions The physical models discussed in some detail here relate to porous media equation heat equation with absorption generalized Fisher's equation Burgers equation and its generalizations A chapter each is devoted to nonlinear diffusion and fluid mechanics The present book will be found useful by applied mathematicians physicists engineers and biologists and would considerably help understand diverse natural phenomena
