Strange Loops And Gestures Of Creation:

Acts of the Heart Robert Sardello, 2011-10 Reading through this volume is to be taken on a journey It is to walk with Robert Sardello on his journey as he pushes forward toward new realities In a sense each step is not so easy The thinking often appears dense the ideas often new and therefore disconcerting But each individual piece as the whole is bathed in an aura in a way we may say it is bathed in soul in love in generosity and friendship Attending to these we find the ideas and the new possibilities begin to make sense We are moved to change our lives Christopher Bamford from his introduction In these introductions Robert Sardello introduces us to many people we may not otherwise have met and introduces us to many ways of being and thinking which we didn't know before The range of those we meet in these pages is staggering At the same time there is a sweet harmony and ever unfolding deepening of a single theme Miraculously it pervades and shapes the entire sequence of those whom he presents even though he often wrote in response to a request and not initially on his own initiative Robert writes of matters with which he has made a deep friendship and out of that friendship he has received and participated in a communion of ideas He is able to do this because he has entered the aspiration of those he is introducing at the deepest level making their insights his own and deepening them in his own way An introduction conveys a particular soul capacity For Robert Sardello soul capacities are of the essence of what he calls Spiritual Psychology Together with the worlds and beings to which they correspond it is such capacities that make us human and enable us to fulfill our human tasks Reading these introductions is an astonishing experience Within their short individual compasses they allow us to participate in Robert's own journey to catch as it were the bird in flight and fly with it That is they map his journey at least that portion of it that began to unfold as his destiny began to crystallize Robert Sardello's insights navigate many hazardous abstractions from the so called New Age through the perennial philosophies With Sophia as his muse the current from the future calls him carrying its many imaginations as energy the always immediate now and the truly new Across these authors writings his visionary perspective deepens in dialogue with the different works as authored beings For writings possess their own spirit or how otherwise do they engender a unique spirit when reborn within our own imagination Scott R Scribner from his introduction

Strange Loops and Gestures of Creation Joseph Chilton Pearce, 2010 *Strange Loops and Gestures of Creation* brings the lifetime work of Joseph Chilton Pearce into symphonic resonance sounding all of the themes that have made him one of the most significant thinkers of this time The book however hardly repeats his previous work Here it is framed in intimate spiritual and personal ways that open us to surprising revelations Joseph Chilton Pearce confronts more clearly precisely and convincingly than any previous writing our dire cultural situation we live in a collective society that lacks true meanings of nurturing in every way He with equal intensity points toward the inherent capacity of the heart the physical heart to bring the survival oriented brain functioning through violence astute manipulative sensing and perceiving and calculative cleverness into balance and indeed to new creative capacities The key to a creative culture lies in the

phenomenon of the strange loop between potential and actuality the relation between the heart as the palpable presence within us of the universal and the mind as the individual aspect of things The many examples ranging from biographical sketches of individuals to neurological research to intimate and personal stories bring home the inescapable conclusions we must find again the way to a holy science that the spirit can be approached with all of the rigor of observational science and the spirit is not out there in the universe but within our very being both heart and brain The Heart-Mind Matrix Joseph Chilton Pearce,2012-08-10 Activating the compassionate intelligence of the heart to reconnect to the universe and our spiritual future Shows how the heart is connected to our prefrontal cortex and offers a balancing counterweight to the calculating intellect of the lower brain Explains how we are stuck in reactive behavior loops resulting from the loss of the nurturing culture of our ancestors Reveals how the Heart Mind Matrix connects us to the universe and is the engine of spiritual evolution Expanding the revolutionary theories of mind explored in the bestselling The Crack in the Cosmic Egg and The Biology of Transcendence Joseph Chilton Pearce explains how the heart provides the balancing intelligence to the brain s calculating intellect an innate system of emotional mental coherence lost generations ago through a breakdown of the nurturing culture of our ancestors By severing ourselves from our heart intelligence we are left with our selfish survival oriented reptilian brains which create and reinforce strange loops between potential and actual reality leading to our modern world s endless cycle of self inflicted disasters and societal crises Pearce explains that in order to break these cycles and transcend a life focused solely on surviving the results of our own reactive patterns we must reconnect with the compassionate intelligence of the heart Offering a rich variety of evidence Pearce explores neurological research lost and enduring nurturing cultures personal experiences and accounts from the lives and writings of modern sages such as Jane Goodall Maria Montessori and Rudolf Steiner He shows that by activating the original matrix of the Heart Mind the engine of our spiritual evolution and our innate connection to the universe we can teach our brains new ways to think amend our destructive behavior loops and enter into a future of peace spiritual connection and conscious evolution **The Life and Insights of Joseph Chilton Pearce** Michael Mendizza,2021-02-16 A comprehensive guide to social visionary Joseph Chilton Pearce s work on the transcendent and magical potential of the human mind Explores Pearce s most influential books including Magical Child sharing his life changing insights into why we have become what we are contrasted with the miracle nature intends us to be Features essential passages interwoven with Pearce s own commentary drawn from personal conversations and unpublished material Shows how Pearce s key insights build across his books and break down core assumptions about reality and human potential An expert in child development Joseph Chilton Pearce 1926 2016 devoted his life to exploring the optimum development and astonishing capacities within each individual human being Across his 12 visionary books and thousands of lectures he blended cutting edge science with spirituality and explored the amazing power of imagination for both children and adults the space where we are able to play with our reality inspiring millions to discover

the human birthright of a more magical world In this guide to Pearce s complete vision of transcendent human potential Michael Mendizza explores 7 of his most influential books sharing insights and expertise from Pearce s full range of interests from child development and conscious parenting to psychic phenomena and altered states to the power of the mind to shape reality Offering essential passages interwoven with Pearce s own commentary drawn from personal conversations and unpublished material this book shows how Pearce s key insights build across his books breaking down core assumptions about reality and human potential We see the importance of imagination and empathic non verbal forms of wisdom which have been long overshadowed to the peril of humanity by verbal intellectual skills with their abstract concepts and ideological perspectives Presenting Pearce s vision of human potential from the 1950s until the end of his life this book shares Pearce s life changing insights into why we have become what we are contrasted with the miracle nature intends us to be allowing each of us to break through our self inflicted limitations and realize our amazing and magical potential
