Strawberry Fields Anthropology Of Contemporary Issues:

Strawberry Fields Miriam J. Wells, 1996 This book is about social conflict and economic restructuring and the play of political forces in the relationship between the two The purpose of the book is to engage and develop social theory through the causal analysis of a particular case but to increase understanding of a fascinating and little known world *The Almond Paradox* Emily Reisman, 2025-10-28 A free ebook version of this title is available through Luminos University of California Press's Open Access publishing program Visit www.luminosoa.org to learn more Almonds have become a poster crop for agriculture's environmental controversies Notorious for consuming vast volumes of water and trucking honeybees across the continent California's almond orchards appear extraordinarily needy In Spain however almond trees have long epitomized the exact opposite rain fed resilience Often planted at the margins of agricultural viability almonds are championed for their ecological thrift rather than their thirst How is it that a crop can be known in such radically different ways The Almond Paradox explores a captivating contrast between divergent ways of knowing not only how much water or pollination almond trees need but also which trees should be grown and where Charting the buildup to a global almond boom the book exposes how situated histories of capitalism land science and the state profoundly shape the most fundamental ways of understanding agriculture A recognition of knowledge as place based further reveals how seemingly placeless efficiency deepens ecological precarity History and Power in the Study of Law June Starr, Jane Fishburne Collier, 1989 A conference called Ethno historical Models and the Evolution of Law was held in Milan and at Bellagio Lake Como Italy from August 10 to August 18 1985 The Wenner Gren Foundation for Anthropological Research and the Rockefeller Foundation provided funding The conference was organized by June Starr of the Department of Anthropology State University of New York at Stony Brook and Jane F Collier of the Department of Anthropology Stanford University The goal was to compare case studies of legal change in particular societies using historical frameworks in order to search for shared questions and methodologies to direct future research The twenty anthropologists sociologists and law professors from North America and Europe who attended devoted five half days to discussing seventeen previously circulated papers and four half days to a general consideration of conference issues In their discussions participants focused on the models they were using to analyze the development change decay integration and articulation of legal systems within specific social units Professors Elizabeth Colson and William Twining served as commentators Jessica Kuper was editorial adviser and Longina Jakubowska and Richard Maddox were rapporteurs *Puede Causar Alguna Enfermedad* Nancie Elena Vargas, 2006 **They Leave Their Kidneys in the Fields** Sarah Horton, 2016-07-19 They Leave Their Kidneys in the Fields takes the reader on an ethnographic tour of the melon and corn harvesting fields in California's Central Valley to understand why farmworkers die at work each summer Laden with captivating detail of farmworkers daily work and home lives Horton examines how U S immigration policy and the historic exclusion of farmworkers from the promises of liberalism has made migrant farmworkers what she calls exceptional workers

She explores the deeply intertwined political legal and social factors that place Latino migrants at particular risk of illness and injury in the fields as well as the patchwork of health care disability and Social Security policies that provide them little succor when they become sick or grow old The book takes an in depth look at the work risks faced by migrants at all stages of life as teens in their middle age and ultimately as elderly workers By following the lives of a core group of farmworkers over nearly a decade Horton provides a searing portrait of how their precarious immigration and work statuses culminate in preventable morbidity and premature death Provided by publisher *JOURNAL OF ECONOMICS LITERATURE* ,1996

Growing Up Brown Peter M. Jamero, Sr.,2011-09-01 I may have been like other boys but there was a major difference my family included 80 to 100 single young men residing in a Filipino farm labor camp It was as a campo boy that I first learned of my ancestral roots and the sometimes tortuous path that Filipinos took in sailing halfway around the world to the promise that was America It was as a campo boy that I first learned the values of family community hard work and education As a campo boy I also began to see the two faces of America a place where Filipinos were at once welcomed and excluded were considered equal and were discriminated against It was a place where the values of fairness and freedom often fell short when Filipinos put them to the test Peter Jamero Peter Jamero s story of hardship and success illuminates the experience of what he calls the bridge generation the American born children of the Filipinos recruited as farm workers in the 1920s and 30s Their experiences span the gap between these early immigrants and those Filipinos who owe their U S residency to the liberalization of immigration laws in 1965 His book is a sequel of sorts to Carlos Bulosan s *America Is in the Heart* with themes of heartbreaking struggle against racism and poverty and eventual triumph Jamero describes his early life in a farm labor camp in Livingston California and the path that took him through naval service and graduate school far beyond Livingston A longtime community activist and civic leader Jamero describes decades of toil and progress before the Filipino community entered the sociopolitical mainstream He shares a wealth of anecdotes and reflections from his career as an executive of health and human service programs in Sacramento Washington D C Seattle and San Francisco **Practicing**

Thomas Schürmann, 2024 In der Außenwahrnehmung ist das Oldenburger Münsterland vor allem ein Schwerpunktgebiet der Intensivtierhaltung. Daneben hat jedoch auch der Anbau von Obst und Gemüse stark an Bedeutung gewonnen. Einige Erzeuger etwa von Gemüse und Erdbeeren zählen zu den größten ihrer Art in der Bundesrepublik. Das Buch geht der Geschichte der landwirtschaftlichen Sonderkulturen nach und rührt damit nicht zuletzt an die Frage, unter welchen Voraussetzungen der Sonderkulturanbau eine Alternative zu den klassischen landwirtschaftlichen Sparten bilden kann. Thomas Schürmann, Jahrgang 1963, Studium der Volkskunde, Geschichte und Germanistik, 1993 Promotion, Tätigkeit für Freilichtmuseen, Kulturvereine und volkskundliche Landesstellen, Forschungsschwerpunkte neben der Bergbaukultur: Landwirtschaft, Nahrung, Sachkultur, Volksglaube und Brauch. Das vorliegende Buch entstand während seiner Tätigkeit bei der Volkskundlichen Kommission für Westfalen. Seit 2019 arbeitet Thomas Schürmann als wissenschaftlicher Mitarbeiter im Kulturanthropologischen Institut Oldenburger Münsterland in Cloppenburg.
