The Plot Against The Nhs:

The Plot Against the NHS Colin Leys, Stewart Player, 2011 Revealing the British coalition government's plans this examination demonstrates how a small policy community inside and outside the department of health have schemed for 10 years to replace the National Health Service NHS with a U S style health care market without informing parliament or the public While ex ministers officials and the like profit from lucrative positions in private health companies the population must cope with the increasing health care costs and the diminishing quality of care With accounts from NHS patients and doctors the key strategies of implementation are uncovered and the companies involved their lobby their businesses their fortunes and in some cases their crimes exposed **How to Dismantle the NHS in 10 Easy Steps** Youssef El-Gingihy, 2015-07-31

Dr Youssef El Gingihy a GP tells the story of how the NHS has been gradually converted into a market based healthcare system over the past 25 years This process is accelerating under the Coalition government and the very existence of a National Health Service is in danger He fears that there will not be an NHS as our generation grows old and certainly not for our children Yet the British public remains largely unaware of this and the media with few exceptions have failed in their duty to inform them The NHS is being broken up into an universal insurance system based on the American model This book matters to all who use the NHS or are concerned by the privatisation of public services and the dismantling of equitable healthcare and welfare If you want to understand the real story behind the headlines and find out how you can preserve the NHS for the future then this book is essential reading Our NHS Andrew Seaton, 2023-01-01 An engaging inclusive history of the NHS exploring its surprising survival and the people who have kept it running In recent decades a wave of appreciation for the NHS has swept across the UK Britons have clapped for frontline workers and championed the service as a distinctive national achievement All this has happened in the face of ideological opposition marketization and workforce crises But how did the NHS become what it is today In this wide ranging history Andrew Seaton examines the full story of the NHS He traces how the service has changed and adapted bringing together the experiences of patients staff from Britain and abroad and the service's wider supporters and opponents He explains not only why it survived the neoliberalism of the late twentieth century but also how it became a key marker of national identity Seaton emphasizes the resilience of the NHS perpetually in crisis and yet perennially enduring as well as the political values it embodies and the work of those who have tirelessly kept it afloat The Death of Public Knowledge? Aeron Davis, 2017-06-09 A collection of short sharp essays

exploring the value of shared and accessible public knowledge in the face of its erosion The Death of Public Knowledge argues for the value and importance of shared publicly accessible knowledge and suggests that the erosion of its most visible forms including public service broadcasting education and the network of public libraries has worrying outcomes for democracy With contributions from both activists and academics this collection of short sharp essays focuses on different aspects of public knowledge from libraries and education to news media and public policy Together the contributors record

the stresses and strains placed upon public knowledge by funding cuts and austerity the new digital economy quantification and target setting neoliberal politics and inequality These pressures the authors contend not only hinder democracies but also undermine markets economies and social institutions and spaces everywhere Covering areas of international public concern these polemical accessible texts include reflections on the fate of schools and education the takeover of public institutions by private interests and the corruption of news and information in the financial sector They cover the compromised Greek media during recent EU negotiations the role played by media and political elites in the Irish property bubble the compromising of government policy by corporate interests in the United States and Korea and the squeeze on public service media in the United Kingdom New Zealand and the United States Individually and collectively these pieces spell out the importance of maintaining public shared knowledge in all its forms and offer a rallying cry for doing so asserting the need for strong public financial and regulatory support Contributors Toril Aalberg Ian Anstice Philip Augar Rodney Benson Aeron Davis Des Freedman Wayne Hope Ken Jones Bong hyun Lee Colin Leys Andrew McGettigan Michael Moran Aristotelis Nikolaidis Justin Schlosberg Henry Silke Roger Smith Peter Thompson Janine R Wedel Karel Williams Kate Wright

Deconstructing the Welfare State Paula Hyde, Edward Granter, John Hassard, Leo McCann, 2016-06-23 Who are NHS middle managers What do they do and why and how do they do it This book explores the daily realities of working life for middle managers in the UK's National Health Service during a time of radical change and disruption to the entire edifice of publicly funded healthcare It is an empirical critique of the movement towards a healthcare model based around HMO type providers such as Kaiser Permanente and United Health Although this model is well known internationally many believe it to be financially and ethically questionable and often far from best practice when it comes to patient care Drawing on immersive ethnographic research based on four case studies an Acute Hospital Trust an Ambulance Trust a Mental Health Trust and a Primary Care Trust this book provides an in depth critical appraisal of the everyday experiences of a range of managers working in the NHS It describes exactly what NHS managers do and explains how their roles are changing and the types of challenges they face The analysis explains how many NHS junior and middle managers are themselves clinicians to some extent with hybrid roles as simultaneously nurse and manager midwife and manager or paramedic and manager While commonly working in back office functions NHS middle managers are also just as likely to be working very close to or actually on the front lines of patient care Despite the problems they regularly face from organizational restructuring cost control and demands for accountability the authors demonstrate that NHS managers in their various guises play critical yet undervalued institutional roles Depicting the darker sides of organizational change this text is a sociological exploration of the daily struggle for work dignity of a complex widely denigrated and largely misunderstood group of public servants trying to do their best under extremely trying circumstances It is essential reading for academics students and practitioners interested in health management and policy organisational change public sector management and the NHS more broadly

Surviving Work in Healthcare Elizabeth Cotton, 2017-03-08 The book takes as its starting point the crisis of healthcare in the UK impossible health targets managed through command and control management and a stomach churning rise in racism whistleblowing and victimisation in the NHS The use of nationally set productivity targets combined with austerity cuts have increasingly put clinical best practice into direct conflict with funding Health targets have become politically controlled and performance has become a cynical exercise in ticking boxes cascaded within trusts and bulldozed through frontline services This has led directly to a precarious system of employment relations subject to the continual restructuring of services rather than the goal of creating functioning interdisciplinary teams that stand a chance of capturing clinical excellence This book is written for workers and managers who are on the frontline of the battle for decent healthcare The content of this book is based on the ordinary expertise of the people who are actually surviving it and helpful ideas about making the best out of a bad lot *Surviving Work in Healthcare* will be of interest to healthcare professionals and anyone working on the frontline of healthcare as well as students of management human resources and psychology
