Reading Hegel Robert Lucas Scott, 2025-03-14 Retrieves Hegelian

speculative experience for literary theory The relationship between Hegel and literary theory has for a long time been both contested and paradoxical On the one hand theory is often skeptical of all that Hegel ostensibly stood for idealism systematicity and identity at the expense of difference Yet in spite of itself literary theory is taken to owe a profound debt to Hegel s philosophy Robert Lucas Scott s book complicates this account and argues that literary theory has made the mistake of abstracting Hegel s thought from its more dynamic presentation in Hegel s writings reducing Hegel to a series of propositions or positions Literary theory Scott argues misses what is perhaps the greatest innovation of Hegel s philosophy a presentation of experience that begins precisely by setting aside all preconceptions or prior assumptions It is on this point that Hegel s philosophy itself approaches literature its content cannot be simply abstracted from the singular experience of reading it Only through a mode of reading alive to speculative experience can literary theory become truly Hegelian Scott s exposition of Hegel offers a model of reading with relevance beyond philosophy one that is critical without pretensions of mastery and detachment and that honors the singularity of the reading experience without succumbing to the subjectivism of the postcritical The book also includes engagements with the work of Luther Kant Marx Gillian Rose Fredric Jameson Robert Brandom Catherine Malabou and more in its recovery of Hegel s thought for a critical understanding of our time

The Phenomenology of Embodied Subjectivity Rasmus Thybo Jensen, Dermot Moran, 2014-01-09 The 17 original essays of this volume explore the relevance of the phenomenological approach to contemporary debates concerning the role of embodiment in our cognitive emotional and practical life The papers demonstrate the theoretical vitality and critical potential of the phenomenological tradition both through critically engagement with other disciplines medical anthropology psychoanalysis psychiatry the cognitive sciences and through the articulation of novel interpretations of classical works in the tradition in particular the works of Edmund Husserl Maurice Merleau Ponty and Jean Paul Sartre The concrete phenomena analyzed in this book include chronic pain anorexia melancholia and depression
