James P. Cannon and the Emergence of Trotskyism in the United States, 1928-38 Bryan D. Palmer, 2021-10-25

Bryan D Palmer reinterprets the history of labour and the left in the United States during the 1930s through a discussion of the emergence of Trotskyism in the most advanced capitalist country in the world Focussing on James P Cannon the founder of American Trotskyism Palmer builds on his previously published and award winning book *James P Cannon and the Origins of the American Revolutionary Left 1890 1928 2007* with a deeply researched and elegantly written study of Cannon and the Trotskyist movement in the United States from 1928 38 Situating this dissident communist movement within the history of class struggle both national and international Palmer examines how Cannon and others fought to revive a combative trade unionism thwart fascism and the drift to war refuse Stalinism s many degenerations and build a new Party and a new International both of which would be dedicating to reviving and realizing the possibilities of revolutionary socialism The result is a study that provides a definitive account of the largest and most influential Trotskyist movement in the world in the 1930s a mobilization whose history recasts understandings of the more extensively studied experience of United States working class militancy and the place of the Comintern affiliated Communist Party within it

The Rise and Fall of Communist Yugoslavia Tomaž Ivešić, 2024-03-05 *The Rise and Fall of Communist Yugoslavia* Soft Nation Building in Yugoslavia examines how the Communist Party of Yugoslavia incorporated the idea of a Yugoslav nation into its ideology and created the Yugoslav Soft Nation Building project after the Second World War With an innovative approach of researching three levels of research from above from below and from the viewpoint of interethnic relations the book brings forward an original concept of soft nation building with a focus on the Slovenian Yugoslav dimension Drawing on archival sources from Ljubljana Zagreb Sarajevo and Belgrade the author argues that after the abandonment of the Yugoslav national idea two Yugoslavisms were created in the mid 1960s State based socialist Yugoslavism was propagated by the Party and had no ethnic connotations only a small proportion of the population identified themselves as Yugoslav in national terms The created vacuum was filled by old national identities The book is of interest to specialists and advanced students of cultural and intellectual history studies of nationalism but also history of science and institutions and the history of everyday life The book aims to appeal to scholars of Balkan South East European and Yugoslav history

The Making and Unmaking of the Ukrainian Working Class Denys Gorbach, 2024-03-15 Industrial workers in Ukraine have a complex political lifeworld because their political action aimed at bringing radical social change coexists with a demobilizing stance that condemns all political participation as corrupt This contradictory attitude to politics defines the character of populist mass mobilizations that shook Ukraine in 2004 and 2014 as well as the electoral overhaul of 2019 and the popular response to the Russian invasion in 2022

Based on three years of fieldwork in the city of Kryvyi Rih the book focuses on the moral economy that constitutes the working class and structures its relations with other social groups **Practicing History** Gabrielle M. Spiegel, 2005 This essential new collection of key articles from critical thinkers and practicing historians focuses on where history is now in terms of its theory and practice For students teachers and historians alike this is an indispensable reader *New Directions in Soviet History* Stephen White, Ralph C. Lost to the Collective Kenneth M. Pinnow, 2011-03-15 As an act of unbridled individualism suicide confronted the Bolshevik regime with a dilemma that challenged both its theory and its practice and helped give rise to a social science state whose primary purpose was the comprehensive and rational care of the population Labeled a social illness and represented as a vestige of prerevolutionary culture suicide in the 1920s raised troubling questions about individual health and agency in a socialist society provided a catalyst for the development of new social bonds and subjective outlooks and became a marker of the country's incomplete move toward a collectivist society Determined to eradicate the scourge of self destruction the regime created a number of institutions and commissions to identify pockets of disease and foster an integrated social order The Soviet confrontation with suicide reveals with particular force the regime's anxieties about the relationship between the state and the individual In *Lost to the Collective* Kenneth M Pinnow suggests the compatibility of the social sciences with Bolshevik dictatorship and highlights their illusory promises of control over the everyday life of groups and individuals The book traces the creation of national statistical studies the course of medical debates about causation and expert knowledge and the formation of a distinct set of practices in the Bolshevik Party and Red Army that aimed to identify the suicidal individual and establish his or her significance for the rest of society Arguing that the Soviet regime represents a particular response to the pressures and challenges of modernity the book examines Soviet socialism from its intense concern with the individual to its quest to build an integrated society as one response to the larger question of human unity **Unmaking Imperial Russia** Serhii Plokhy, Mykhailo Hrushevsky Professor of Ukrainian History Serhii Plokhy, 2005-01-01 *Unmaking Imperial Russia* examines Hrushevsky's construction of a new historical paradigm that brought about the nationalization of the Ukrainian past and established Ukrainian history as a separate field of study *Making Yugoslavs* Christian Axboe Nielsen, 2014-01-01 Christian Axboe Nielsen uses extensive archival research to explain the failure of King Aleksandar's dictatorship's program of forced nationalization in the interwar era *Interrogation in War and Conflict* Christopher Andrew, Simona Tobia, 2014-04-29 This edited volume offers a comparative and interdisciplinary analysis of interrogation and questioning in war and conflict in the twentieth century Despite the current public interest and its military importance interrogation and questioning in conflict is still a largely under researched theme This volume's methodological thrust is to select historical case studies ranging in time from the Great War to the conflicts in former Yugoslavia and including the Second World War decolonization the Cold War the Troubles in Northern Ireland and international justice cases in The

Hague each of which raises interdisciplinary issues about the role of interrogation These case studies were selected because they resurface previously unexplored sources on the topic or revisit known cases which allow us to analyse the role of interrogation and questioning in intelligence security and military operations Written by a group of experts from a range of disciplines including history intelligence psychology law and human rights Interrogation in War and Conflict provides a study of the main turning points in interrogation and questioning in twentieth century conflicts over a wide geographical area The collection also looks at issues such as the extent of the use of harsh techniques the value of interrogation to military intelligence security and international justice the development of interrogation as a separate profession in intelligence as well as the relationship between interrogation and questioning and wider society This book will be of much interest to students of intelligence studies strategic studies counter terrorism international justice history and IR in general The Post-Soviet Russian Media Birgit Beumers, Stephen Hutchings, Natalia Rulyova, 2008-11-26 Presenting original research from a number of well known international specialists this book is a detailed investigation of the development of mass media in Russia since the end of Communism and the collapse of the Soviet Union Petrified Utopia Marina Balina, Evgenii Aleksandrovich Dobrenko, 2011 Taken together these essays redefine the preconceived notion of Soviet happiness as the product of official ideology imposed from above and expressed predominantly through collective experience and provide evidence that the formation of the concept of individual happiness was not contained by the limitations of important state projects controlled by state policies and aimed toward the creation of a new society **Ukrainian Nationalists and the Holocaust** John-Paul Himka, 2021-09-21 One quarter of all Holocaust victims lived on the territory that now forms Ukraine yet the Holocaust there has not received due attention This book delineates the participation of the Organization of Ukrainian Nationalists OUN and its armed force the Ukrainian Insurgent Army Ukrainska povstanska armia UPA in the destruction of the Jewish population of Ukraine under German occupation in 1941-44 The extent of OUN and UPA's culpability in the Holocaust has been a controversial issue in Ukraine and within the Ukrainian diaspora as well as in Jewish communities and Israel Occasionally the controversy has broken into the press of North America the EU and Israel Triangulating sources from Jewish survivors Soviet investigations German documentation documents produced by OUN itself and memoirs of OUN activists it has been possible to establish that OUN militias were key actors in the anti Jewish violence of summer 1941 OUN recruited for and infiltrated police formations that provided indispensable manpower for the Germans mobile killing units and in 1943 thousands of these policemen deserted from German service to join the OUN led nationalist insurgency during which UPA killed Jews who had managed to survive the major liquidations of 1942 **Fashion and the Consumer Revolution in Contemporary Russia** Olga Gurova, 2014-10-24 This book explores how clothing consumption has changed in Russia in the past 20 years as capitalism has grown in a postsocialist state bringing with it a consumer revolution It shows how there has been and continues to be a massive change in the fashion retail market and how ideal lifestyles portrayed in

History in Soviet Russia R. Markwick, 2001-02-01 This book explores the political significance of the development of historical revisionism in the USSR under Khrushchev in the wake of the Twentieth Congress of the CPSU and its demise with the onset of the period of stagnation under Brezhnev On the basis of intensive interviews and original manuscript material the book demonstrates that the vigorous rejuvenation of historiography undertaken by Soviet historians in the 1960s conceptually cleared the way for and fomented the dramatic upheaval in Soviet historical writing occasioned by the advent of perestroika The Politics of Torture T. Lightcap, 2011-08-15 Why did it happen Why did the United States begin to torture detainees during the War on Terror Instead of an indictment this book presents an explanation Crises produce rare opportunities for overcoming the domestic and foreign policy logjams facing political leaders But what if the projects used to address the crisis and provide cover for their domestic policy initiatives come under serious threat from clandestine opponents Then the restraints on interrogation can be overwhelmed leading to the creation of informal institutions that allow the official establishment of torture These ideas are tested using comparative historical narratives drawn from two cases where torture was adopted the War on Terror and the Stalinist Terror and one where it was not the Mexican War The book concludes with some thoughts about how the United States can avoid the legal establishment of torture in the future

Learning to Become Turkmen Victoria Clement, 2018-05-19 Learning to Become Turkmen examines the ways in which the iconography of everyday life in dramatically different alphabets multiple languages and shifting education policies reflects the evolution of Turkmen society in Central Asia over the past century As Victoria Clement shows the formal structures of the Russian imperial state did not affect Turkmen cultural formations nearly as much as Russian language and Cyrillic script Their departure was also as transformative to Turkmen politics and society as their arrival Complemented by extensive fieldwork Learning to Become Turkmen is the first book in a Western language to draw on Turkmen archives as it explores how Eurasia has been shaped historically Revealing particular ways that Central Asians relate to the rest of the world this study traces how Turkmen consciously used language and pedagogy to position themselves within global communities such as the Russian Soviet Empire the Turkic cultural continuum and the greater Muslim world *Aufstieg zur Energiemacht* Felix Rehschuh, 2018-10-01 Russland z hlt seit Jahrzehnten zu den f hrenden Produzenten Verbrauchern und Exporteuren von Erd l und anderen fossilen Energietr gern Besonders f r die brennstoffarmen europ ischen Volkswirtschaften ist der stliche Nachbar deshalb von essentieller Bedeutung Doch obwohl schon das Zarenreich als gewichtiger Erd lexporteur auftrat und die Bolschewiki dieses Erbe bereitwillig antraten fristete der Energietr ger in der Sowjetunion lange Zeit ein Nischendasein

Erst die Entwicklungen der späten 1940er Jahre gaben die entscheidenden Impulse den Weg ins Erdölzeitalter endgültig zu beschreiten. Dieses Buch thematisiert aus der Perspektive der Moskauer Machtzentralen die wenig beleuchtete aber entscheidende Phase sowjetischer Energiepolitik zwischen 1938 und 1953. Im Kontext innenpolitischer und internationaler Entwicklungen fragt es nach den Hintergründen des sowjetischen Aufstiegs zur globalen Energiemacht.
