Rewriting the Ancient World, 2017-07-03. Rewriting the Ancient World looks at how and why the ancient world, including not only the Greeks and Romans but also Jews and Christians, has been rewritten in popular fictions of the modern world. The fascination that ancient society holds for later periods in the Western world is as noticeable in popular fiction as it is in other media, for there is a vast body of work either set in or interacting with classical models, themes, and societies. These works of popular fiction encompass a very wide range of society and the examination of the interaction between these books and the world of classics provides a fascinating study of both popular culture and an example of classical reception.

The American Popular Novel After World War II David Willbern, 2013-04-05. Through the perspectives of selected best-selling novels from the end of World War II to the end of the 20th century, including *The Catcher in the Rye*, *To Kill a Mockingbird*, *The Godfather*, *Jaws*, *Beloved*, *The Silence of the Lambs*, and *Jurassic Park*, this book examines the crucial issues the U.S. was experiencing during those decades. These novels represent the voices of popular conversations as Americans considered issues of family, class, racism, and sexism, feminism, economic ambition, sexual violence, war, law, religion, and science. Through the windows of fiction, the book surveys the Cold War and anti-communism, the prefeminist era of the 1950s and the sexual revolution of the 1970s, forms of corporate power in the 1960s and 1980s, the traumatic legacies of slavery and Vietnam, the American fascination with lawyers, cops, and criminals, alternate styles of romance in the era of late capitalism, our abiding distrust of science, and our steadfast wonder about the Great Mysteries.
