Reading Orientalism Daniel Martin Varisco, 2017-04-11 The late Edward Said remains one of the most influential critics and public intellectuals of our time with lasting contributions to many disciplines Much of his reputation derives from the phenomenal multidisciplinary influence of his 1978 book Orientalism Said s seminal polemic analyzes novels travelogues and academic texts to argue that a dominant discourse of West over East has warped virtually all past European and American representation of the Near East But despite the book s wide acclaim no systematic critical

survey of the rhetoric in Said's representation of Orientalism and the resulting impact on intellectual culture has appeared until today. Drawing on the extensive discussion of Said's work in more than 600 bibliographic entries, Daniel Martin Varisco has written an ambitious intellectual history of the debates that Said's work has sparked in several disciplines, highlighting in particular its reception among Arab and European scholars. While pointing out Said's tendency to essentialize and privilege certain texts at the expense of those that do not comfortably fit his theoretical framework, Varisco analyzes the extensive commentary the book has engendered in Oriental studies, literary and cultural studies, feminist scholarship, history, political science, and anthropology. He employs critical satire to parody the exaggerated and pedantic aspects of post-colonial discourse, including Said's profound underappreciation of the role of irony and reform in many of the texts he cites. The end result is a companion volume to *Orientalism* and the vast research it inspired. Rather than contribute to dueling essentialisms, Varisco provides a path to move beyond the binary of East versus West and the polemics of blame. *Reading Orientalism* is the most comprehensive survey of Said's writing and thinking to date. It will be of strong interest to scholars of Middle East studies, anthropology, history, cultural studies, post-colonial studies, and literary studies. **Rampart Journal of Individualist Thought**, 1967

Entanglement Edward Purizhansky, 2022-04-27 *Entanglement* By Edward Purizhansky. In Bridgeport, New York, a dead man mysteriously appeared in a chair in a small corner shop. Further investigation discovered his internal organs were arranged in a very unusual way, though there were no clues as to why. At the same time, a scientist known for his physics research is found dead, and another is kidnapped. Soon it is revealed that competing foreign intelligence services use a complex futuristic device, and two enigmatic figures have something to do with these events. Combining science fiction and mystery, *Entanglement* discusses the structure of space and vacuum and provokes unorthodox thinking about scientific facts, leaving the reader to decide if teleportation of complex objects is possible. **British Literature-Student** James Stobaugh, 2012-11-30

From reformers and rogues to poets and playwrights, a study of British literature will take you through some of the most popular works ever written. This curriculum uses a strong biblical worldview to teach students about literary masterpieces from the British literary canon and their historical context. In this comprehensive examination of British literature, students' critical thinking abilities, communication skills, and knowledge of literary classics are all amply developed. This course also stresses biblical application and equips students to think critically about philosophy and trends in culture. Through studying and writing about literature, students will greatly enhance their own personal communication skills. 1 Year Curriculum, 10th-12th Grade, 1 Credit. An author subject index to selected general interest periodicals of reference value in libraries. **The Greater Middle East and the Cold War** Roby C. Barrett, 2007-05-25. At the height of the Cold War, the US sought to maintain power and influence in the Greater Middle East, the region from Morocco to India, in the context of a growing threat from Russia and the decline of British imperialism. This original and

important study illuminates this tense period in international relations offering many new insights into the global situation of the 1950s and 1960s Roby Barrett casts fresh light on US foreign policy under Eisenhower and Kennedy illuminating the struggles of two American administrations to deal with massive social economic and political change in an area sharply divided by regional and Cold War rivalries With a dramatic backdrop of revolutionary Arab nationalism Zionism indigenous Communism teetering colonial empires unstable traditional monarchies oil territorial disputes and the threat of Soviet domination of the region this book vividly highlights the fundamental similarities between the goals and application of foreign policy in the Eisenhower and Kennedy administrations as well as the impact of British influence on the process Drawing on extensive research in archives and document collections from Kansas to Canberra as well as numerous interviews with key policy makers and observers from both the Eisenhower and Kennedy administrations Roby Barrett explores the application of the Cold War containment policy through economic development and security assistance Within the broader context of the global Cold War struggle the Greater Middle East also held the potential as the flashpoint for nuclear war and Barrett analyses fully the implications of this for international relations In the process this book draws some unexpected conclusions arguing that Eisenhower's policies were ultimately more successful than Kennedy's and offers an important and revisionist contribution to our understanding of the Cold War and the Middle East

Racialised Gang Rape and the Reinforcement of Dominant Order Kiran Kaur Grewal, 2016-12-08 This path breaking book provides a comparative analysis of public discourses in France and Australia on a series of highly mediatised racialised gang rapes that occurred during the early to mid 2000s These rapes led to intense public debate in both countries regarding an apparent gang rape phenomenon associated with young men of Muslim background By comparing the responses to similar instances of sexual violence in two very different Western liberal democracies this book explores the relationship between constructions of national gender and ethnic identity in modern developed nations of the West The impact of immigration and cultural diversity on communities has become an issue of central concern to Western liberal democracies in recent years With greater movements of people than ever before and large temporary migrant populations who have not gone home the discourse of a crisis of national identity is a feature of many democracies in the West At the same time in a supposedly post feminist age the focus of debates around women's rights in these democracies has increasingly been the extent to which the cultural values of immigrant and ethnic minority populations are compatible with the espoused gender equality of the West Through an analysis of these rapes Kiran Kaur Grewal identifies certain commonalities as well as interesting points of divergence within the two nations public discourses In doing so she identifies the limitations of current debates and proposes alternative ways of understanding the tensions at play when trying to respond to acts of extreme sexism and violence committed by members of ethnic minority communities
