

300 creative writing prompts for kids

Imagine a giant box is delivered to your front doorstep with your name on it. What's inside and what happens when you open it?

Write a short story about what it might be like if you woke up one morning with a mermaid tail.

Write about what would it be like if you had an alligator as a pet.

If you were in charge of the whole world, what would you do to make the world a happier place?

Imagine that dogs take over the world. What do they make the humans do?

Write about 3 places you would like to travel someday. What do these three places have in common?

Write a poem that starts with the word "if".

How do you feel when someone takes something of yours without asking? What is a good way to deal with it when that happens?

Imagine you walk out your front door one morning and it is raining popcorn! What do you do?

for budding children's authors everywhere **STEM to Story** 826 National, 2015-01-20 Bring STEM to life for students with zombies, rockets, celebrities and more. STEM to Story: Enthralling and Effective Lesson Plans for Grades 5-8 inspires learning through fun, engaging and meaningful lesson plans that fuse hands-on discovery in science, technology, engineering and math with creative writing. The workshop activities within the book are the innovative result of a partnership between 826 National's proven creative writing model and Time Warner Cable's Connect a Million Minds, an initiative dedicated to connecting young people to the wonders of STEM through hands-on learning. Authentically aligned with both the Common Core State Standards and the Next Generation Science Standards, this book provides teachers, after-school and out-of-school providers and parents with field-tested lessons, workshops and projects designed by professionals in each field. Including reflective observations by arts and science celebrities like Jon Scieszka, Mayim Bialik and Steve Hockensmith, lessons feature bonus activities, fun facts and teaching points for instructors at every level. These quirky, exploratory lessons will effectively awaken student imaginations and passions for both STEM and creative writing, encourage identity with scientific endeavors and make both science and writing fun. Grades five through eight is the critical period for engaging students in STEM, and this book is designed specifically to appeal to and engage this age group. The guided curricula fosters hands-on discovery, deep learning and rich inquiry skills while feeling more like play than school and has proven popular and effective with both students and teachers. Awaken student imagination and get them excited about STEM. Fuse creative writing with STEM using hands-on activities. Make scientific principles relevant to students' lives. Inspire students to explore STEM topics further. The demand for STEM workers is closely linked to global competitiveness and a successful future in STEM depends upon an early introduction to the scientific mindset. The challenge for teachers is to break through students' preconceptions of STEM fields as hard or boring to show them that STEM is everywhere, it's relevant and it's loads of fun. For proven lesson plans with just a dash of weird, STEM to Story is a dynamic resource adaptable and applicable in school, after school and at home. **Gareth's**
