Scott, 2008-07-31 The phrase popular music revolution may instantly bring to mind such twentieth century musical movements as jazz and rock n roll In Sounds of the Metropolis however Derek Scott argues that the first popular music revolution actually occurred in the nineteenth century illustrating how a distinct group of popular styles first began to assert their independence and values He explains the popular music revolution as driven by social changes and the incorporation of music into a system of capitalist enterprise which ultimately resulted in a polarization between musical entertainment or commercial music and serious art He focuses on the key genres and styles that precipitated musical change at that time and that continued to have an impact upon popular music in the next century By the end of the nineteenth century popular music could no longer be viewed as watered down or more easily assimilated art music it had its own characteristic techniques forms and devices As Scott shows popular refers here for the first time not only to the music s

reception but also to the presence of these specific features of style The shift in meaning of popular provided critics with tools to condemn music that bore the signs of the popular which they regarded as fashionable and facile rather than progressive and serious A fresh and persuasive consideration of the genesis of popular music on its own terms Sounds of the Metropolis breaks new ground in the study of music cultural sociology and history **Muzikološki zbornik** ,2005 **A Different Voice, a Different Song** Caroline Bithell,2014 A Different Voice A Different Song traces the history of a grassroots scene that has until now operated largely beneath the radar but that has been gently gathering force since the 1970s At the core of this scene today are the natural voice movement founded on the premise that everyone can sing and a growing transnational community of amateur singers participating in multicultural music activity Author Caroline Bithell reveals the intriguing web of circumstances and motivations that link these two trends highlighting their potential with respect to current social political and educational agendas She investigates how and why songs from the world s oral traditions have provided the linchpin for the natural voice movement revealing how the musical traditions of other cultures not only provide a colourful repertoire but also inform the ideological methodological and ethical principles on which the movement itself is founded A Different Voice A Different Song draws on long term ethnographic research including participant observation at choir rehearsals performances workshops and camps as well as interviews with voice teachers choir and workshop leaders camp and festival organisers and general participants Bithell shows how amateur singers who are not musically literate can become competent participants in a vibrant musical community and in the process find their voice metaphorically as well as literally She then follows some of these singers as they journey to distant locations to learn new songs in their natural habitat She theorises these trends in terms of the politics of participation the transformative potential of performance building social capital the global village and reclaiming the arts of celebration and conviviality The stories that emerge reveal a nuanced web of intersections between the local and global one which demands a revision of the dominant discourses of authenticity cultural appropriation and agency in the post colonial world and ultimately points towards a more progressive politics of difference A Different Voice a Different Song will be an essential text for practitioners involved in the natural voice movement and other vocal methodologies and choral worlds As a significant study in the fields of ethnomusicology music education and community music the book will also be of interest to scholars studying the democratisation of the voice the dynamics of participation world musics in performance the transformative power of harmony singing and the potential of music making for sustaining community and aiding intercultural understanding **Spirituals** Kathleen A. **Emancipation** Mat Callahan, 2022-05-23 Throughout the history of slavery enslaved people organized resistance escape and rebellion. Sustaining them in this struggle was their music some examples of which are sung to this day. While the existence of slave songs especially spirituals is well known their character is often misunderstood. Slave songs were not only lamentations of suffering or distractions from a life of misery. Some songs openly called for liberty and revolution celebrating such heroes as Gabriel Prosser and Nat Turner and especially celebrating the Haitian Revolution. The fight for freedom also included fugitive slaves free Black people and their white allies who brought forth a set of songs that were once widely disseminated but are now largely forgotten the songs of the abolitionists. Often composed by fugitive slaves and free Black people and first appearing in the eighteenth century these songs continued to be written and sung until the Civil War. As the movement expanded abolitionists even published song books used at public meetings. Mat Callahan presents recently discovered songs composed by enslaved people explicitly calling for resistance to slavery some originating as early as 1784 and others as late as the Civil War. He also presents long lost songs of the abolitionist movement some written by fugitive slaves and free Black people challenging common misconceptions of abolitionism. *Songs of Slavery and Emancipation* features the lyrics of fifteen slave songs and fifteen abolitionist songs placing them in proper historical context and making them available again to the

general public These songs not only express outrage at slavery but call for militant resistance and destruction of the slave system There can be no doubt as to their purpose the abolition of slavery the emancipation of African American people and a clear and undeniable demand for equality and justice for all humanity **My Favorite Spirituals** Roland Hayes, 2001-01-01 Thirty musical arrangements by noted African American tenor recall biblical events in such well known tunes as Deep River Dry Bones Steal Away and Were You There Perceptively written introduction to each song includes background history Rich collection will appeal to lovers of great spirituals and the rich legacy of African American song Instrument of the State Benjamin J. Harbert, 2023 Louisiana State Penitentiary is one of the largest and most brutal maximum security prisons in the United States Built on the grounds of a former plantation the prison is commonly referred to as Angola apropos of the country of origin for many of the enslaved people who inhabited the land Despite notoriously inhumane conditions within the prison people incarcerated at Angola have sustained a rich and dynamic musical legacy since the late nineteenth century attracting folklorists such as John and Alan Lomax and Harry Oster Well known musicians including Huddie William Lead Belly Ledbetter Charles Neville and James Booker played a part in this history in addition to a litany of others who proved vital to the prison's musical culture but for various reasons were unable to establish their careers upon release In Instrument of the State author Benjamin J Harbert interweaves oral history and archival research to show how incarcerated musicians find small but essential freedoms by performing jazz R B country gospel rock and fusion throughout the Twentieth Century In doing so he expands folkloric definitions of prison music considering the ways in which music manifests among the incarcerated and the prison's administration as a lens to better understand state power and the fragments of hope and joy that remain in its wake Instrument of the State acts as an indictment of the carceral state highlighting the many ways in which the US penal system disproportionately affects African American people through desperate profiteering of a deliberately underfunded state agency *Music, Books on Music, and Sound Recordings* Library of Congress, 1988
