

Banksman and Slinger

Pre-lift Checks

Page 17 of 21

MINTRA®

- ✔ All lifting devices and rigging will be visually examined by agreed members of the Lift Team
- ✔ All loads will be checked for loose objects which could pose a dropped object hazard
- ✔ Similarly, all rigging will be checked as being secure by the Slinger
- ✔ The Banksman will check the area for any unauthorised or non-essential personnel
- ✔ The Banksman will ensure that the lift area is controlled
- ✔ The Banksman will also contact the Bridge to alert them that the lift is about to take place

Annelies Wilder-Smith

Slinger Banksman Manuals:

Construction Safety Handbook V. J. Davies, K. Tomasin, 1996 This book is an essential guide for all construction industry professionals whose duty it is to preserve the health safety and welfare of others by effective design and management The authors describe the most common hazards of construction work and how to reduce the consequent risks They explain the essential details of construction safety law the organisational basis for implementing health and safety policies and duties under current safety regulations This edition has been fully revised to incorporate developments in construction methods and new legislative requirements *Steel Designers' Manual* Buick Davison, Graham W. Owens, 2008-04-15 This classic manual on structural steel design provides a major source of reference for structural engineers and fabricators working with the leading construction material Based fully on the concepts of limit state design the manual has been revised to take account of the 2000 revisions to BS 5950 It also looks at new developments in structural steel environmental issues and outlines the main requirements of the Eurocode on structural steel *Steel Designers' Manual* SCI (Steel Construction Institute), 2016-06-27 In 2010 the then current European national standards for building and construction were replaced by the EN Eurocodes a set of pan European model building codes developed by the European Committee for Standardization The Eurocodes are a series of 10 European Standards EN 1990 EN 1999 that provide a common approach for the design of buildings other civil engineering works and construction products The design standards embodied in these Eurocodes will be used for all European public works and are set to become the de facto standard for the private sector in Europe with probable adoption in many other countries This classic manual on structural steelwork design was first published in 1955 since when it has sold many tens of thousands of copies worldwide For the seventh edition of the Steel Designers Manual all chapters have been comprehensively reviewed revised to ensure they reflect current approaches and best practice and brought in to compliance with EN 1993 Design of Steel Structures the so called Eurocode 3
