Lebbeus Woods: Exquisite Experiments, Early Years Aleksandra Wagner, Neil Spiller, 2024-03-18 American architect Lebbeus Woods 1940 2012 remains a quiet hero not only among his colleagues but also for architectural students intrigued by the ideas and fluent beauty of his powerful graphic verve as well as of his writing His projects from the mid 1980s until the end of his life have been widely published However this AD in collaboration with the Estate of Lebbeus Woods explores the earlier period beginning in the late 1960s when Woods was honing his draughtsmanship and theoretical positions while experimenting with a variety of themes and different modes of expression When he burst onto the international architectural scene with a solo exhibition and accompanying catalogue *Lebbeus Woods Origins* at the Architectural Association London in 1985 some wondered how anyone could emerge so fully formed from nowhere Working against the logic of nowhere this issue charts his early trajectory through the largely unpublished drawings and texts linking them with what came after Aiming to generate new scholarship its roster of international interdisciplinary critics and commentators offer a new understanding of Woods s work and of his formative years also shining a light on how we might think about the early work of any architect s career Contributors Joseph Becker

Aaron Betsky Peter Cook Mark Dorrian Riet Eeckhout Kevin Erickson Joerg Gleiter Sharon Irish Eliyahu Keller Lawrence Rinder Ashley Simone Ben Sweeting **White Gold** Susan Falls, 2017-09 Women have shared breast milk for eons but in White Gold Susan Falls shows how the meanings of capitalism technology motherhood and risk can be understood against the backdrop of an emerging practice in which donors and recipients of breast milk are connected through social media in the southern United States Drawing on her own experience as a participant Falls describes the sharing community She also presents narratives from donors doulas medical professionals and recipients to provide a holistic ethnographic account Situating her subject within cross cultural comparisons of historically shifting attitudes about breast milk Falls shows how sharing white gold seen as a scarce valuable even mysterious substance is a mode of enacting parenthood gender and political values Though breast milk is increasingly being commodified Falls argues that sharing is a powerful and empowering practice Far from uniform participants may be like minded about parenting but not other issues so their acquaintanceships add new textures to the body politic In this interdisciplinary account White Gold shows how sharing simultaneously reproduces the capitalist values that it disrupts while encouraging community making between strangers

Perspective as Logic: Positioning Film in Architecture Stefanos Roimpas, 2023-04-28 Perspective as Logic offers an architectural examination of the filmic screen as an ontologically unique element in the discipline s repertoire The book determines the screen s conditions of possibility by critically asking not what a screen means but how it can mean anything of architectural significance Based on this shift of enquiry towards the question of meaning it introduces Jacques Lacan and Alain Badiou in an unprecedented way to architecture since they exemplify an analogous shift of perspective towards the question of the subject and the question of being accordingly The book begins by positing perspective projection as being a logical mapping of space instead of a matter of sight Alberti Lacan Secondly it discusses the very nature of architecture s view and relation to the topological notion of outside between immediacy and mediation Diller and Scofidio The Slow House It examines the limitation of pictorial illusion and the productive negativity in the suspension of architecture s signified equivalent to language s production of undecidable propositions Eisenman Badiou In addition the book outlines the difference between the point of view and the vanishing point by introducing two different conceptions of infinity Michael Webb Temple Island Finally a series of design experiments playfully shows how the screen exemplifies architecture s self reflexive capacity where material and immaterial components are part of the spatial conception to which they refer and produce This book will be particularly appealing to scholars of architectural theory especially those interested in the domains of philosophy psychoanalysis and the linguistic turn of architecture Mural Decoration in the Theban Necropolis Betsy M. Bryan, Peter F. Dorman, 2023-04-10 The tombs and mortuary temples of Thebes have proved an enduring topic of interest thanks to a quickly expanding corpus of field materials and a series of conferences devoted to the subject This volume the fourth in a series of occasional proceedings from the ongoing Theban Workshop presents new research on wall decoration in

the Theban necropolis Its thirteen essays by an international array of leading scholars attest to the wide and varied scope of the theme **Data Curation and Information Systems Design from Australasia** Julie Nichols, Bharat Mehra, 2024-01-31

Architecture Sana Murrani, 2024-09-05 This is the first book to critically and visually explore the spatial practices of refuge in response to conditions of war violence and displacement experienced in Iraq from 2003 to 2023 Written by an Iraqi architect who has lived through the trauma of several wars 10 years of UN imposed sanctions an invasion and the subsequent violence this book captures a broad spectrum of spatial responses to trauma and presents a fresh perspective on how ordinary Iraqis create refuge across the spaces of the home the urban environment and border geographies In the face of spatial wounding and the many injustices suffered by the Iraqi people there has also been a wealth of refuge making practices that showcase their creative and imaginative design and adaptability to change and trauma over time Rupturing Architecture employs methods such as creative deep mapping memory work storytelling interviews and case studies of architectural responses to the geographies of war and violence At the core of the book are the lived and felt experiences of fifteen Iraqis from across Iraq whose resilience underscores a broader narrative of spatial justice and feminist spatial practices The book articulates the dual nature of rupturing as both a sign of trauma and a powerful act of resistance examining how these forces shape domesticity urbanity and border spaces The concluding manifesto for spatial justice calls for a deep integrated understanding of place memory and trauma advocating for comprehensive strategies in the making of refuge spaces that also resonate in a wider global context **ORIGENES INCONFORMISTAS DE LA ARQUITECTURA MODERNA**
