Sleeping Dreaming And Dying An Exploration Of Consciousness:

Sleeping, Dreaming, and Dying Dalai Lama, 2002-05-01 This is an absorbing account of a dialogue between leading Western scientists and the foremost representative of Buddhism today the Dalai Lama of Tibet For modern science the transitional states of consciousness lie at the forefront of research in many fields For a Buddhist practitioner these same states present crucial opportunities to explore and transform consciousness itself This book is the account of a historic dialogue between leading Western scientists and the Dalai Lama of Tibet Revolving around three key moments of consciousness sleep dreams and death the conversations recorded here are both engrossing and highly readable Whether the topic is lucid dreaming near death experiences or the very structure of consciousness itself the reader is continually surprised and delighted Narrated by Francisco Varela an internationally recognized neuroscientist the book begins with insightful remarks on the notion of personal identity by noted philosopher Charles Taylor author of the acclaimed *Sources of Self* This sets the stage for Dr Jerome Engel Dr Joyce MacDougal and others to engage in extraordinary exchanges with the Dalai Lama on topics ranging from the neurology of sleep to the yoga of dreams Remarkable convergences between the Western scientific tradition and the Buddhist contemplative sciences are revealed Dr Jayne Gackenbach's discussion of lucid dreaming for example prompts a detailed and fascinating response from the Dalai Lama on the manipulation of dreams by Buddhist meditators The conversations also reveal provocative divergences of opinion as when the Dalai Lama expresses skepticism about Near Death Experiences as presented by Joan Halifax The conversations are engrossing and highly readable Any reader interested in psychology neuroscience Buddhism or the alternative worlds of dreams will surely enjoy *Sleeping Dreaming and Dying*

Sleeping, Dreaming, and Dying Dalai Lama XIV Bstan-'dzin-rgya-mtsho, 1997 [Opening the Eye of New Awareness](#) Dalai Lama, 2012-06-25 *Opening the Eye of New Awareness* is a succinct thorough overview of the doctrines of Buddhism as they have been practiced for a thousand years in Tibet The Dalai Lama here discusses the need for religious practice and the importance of kindness and compassion Originally written for Tibetan lay people this was the Dalai Lama's first book on Buddhist philosophy to appear in English and Prof Lopez's new introduction places these teachings in their proper historical context This is an invaluable handbook for both personal use and academic study of the Buddhist path Written for both Tibetan and Western readers *Opening the Eye of New Awareness* is the Dalai Lama's first religious work It is not an edited transcript of public lectures but is His Holiness' own summation of Buddhist doctrine and practice Completed in 1963 just four years after his escape from Tibet and four years after completing his religious education it is a work of consummate scholarship by a twenty seven year old geshe wise beyond his years Nowhere in his many subsequent works does one find a more clear and concise exposition of the essentials of Buddhist thought Indeed all of His Holiness's many publications are in some sense commentaries on this first book

Reincarnation: a Passage Through Time Robert Colacurcio, 2014-04-07 This book invites readers who consider themselves savvy investors in their long term future to give

some serious thought to the lifetime s that may come next The authors approach is to investigate the essential relationship of the human soul to time Whether the reader currently believes in one lifetime or many the relationship of the soul to time will condition whatever comes next on the other side of the portal of death There are many nave portrayals and gross misconceptions about what comes next whether one believes in an eternity in heaven or an indefinite number of reincarnations This book tries to get beyond many of these limited conceptions Too many people have only childhood information to work with when thinking about their long term future Unfortunately everything you need to know to make savvy investments in your long term future was not taught in kindergarten
