Winning in Tough Hold 'em Games Nick Grudzien, Geoff Herzog, 2007-04 The recent boom of Texas hold em has forever changed the way the game is played Many more people know how to play this game well Even the loose players who come to gamble have become far more aggressive making them more difficult to play against So a basic tight and patient strategy will no longer guarantee that you can make a significant amount of money in games at the higher stakes This is especially true short handed which have become increasingly popular in the online poker rooms This text is the first to tackle the complex issues presented when playing short handed and high stakes limit hold em But even if you happen to only play in softer games many of the key concepts presented

will still help you against the other good players in your game

Winning in Tough Hold em Games includes an examination of pre flop play covering issues at a depth of sophistication which have never appeared in print before including discussions of blind stealing re stealing isolating a loose player big blind and small blind defense and blind versus blind play Also covered are thorough sections on playing heads up post flop and semi bluffing In addition over 50 hands taken from high stakes online games which were played by Stoxtrader are presented along with appropriate discussion of the strategy involved
