Using Developmentally Appropriate Practices to Teach the Common Core Lisa S. Goldstein, 2015-07-16 Using Developmentally Appropriate Practices to Teach the Common Core Grades PreK-3 provides current and prospective primary grade teachers with an understanding of the CCSS ELA and CCSS M that highlights their compatibility with developmentally appropriate practices (DAP), the instructional approach generally preferred by teachers of young children. The book begins by framing the CCSS as a distinct improvement over lengthy lists of academic content standards and as a carefully conceptualized and DAP-friendly set of curriculum guidelines. Next, the CCSS ELA and CCSS M for Grades K-3 are unpacked, analyzed, synthesized, and cross-referenced to key features of DAP. Finally, several hot topic issues differentiating instruction to meet the needs of all learners, ensuring equitable access to the curriculum for English Language Learners, addressing assessment and accountability expectations, and educating parents and families about the CCSS and DAP are prioritized and examined in depth. *Using Developmentally Appropriate Practices to Teach the Common Core Grades PreK-3* is a highly useful guide for both pre-service and in-service early childhood education teachers.

Common Core Standards for Elementary Grades 3-5 Math & English Language Arts Amber Evenson, Monette McIver, Susan Ryan, Amitra Schwols, 2013-03-12 Smart implementation of the Common Core State Standards requires both an overall understanding of the standards and a grasp of their implications for planning teaching and learning. This Quick Start Guide provides a succinct all-in-one look at the content structure, terminology, and emphases of the Common Core standards for mathematics and English language arts in the upper elementary grades. The meaning of the individual standards within each of the four ELA literacy strands and five math domains, with an emphasis on areas that represent the most significant changes to business as usual, is explained. How the standards connect across and within strands, domains, and grade levels to develop foundational language arts literacy and mathematics learning and prepare students for success in the critical middle school years is explored. Here, teachers of grades 3-5 and elementary school leaders will find information they need to begin adapting their practices to help all students master the new and challenging material contained in the standards. A practical lesson planning process to use with the Common Core based on Classroom Instruction That Works 2nd Ed is included, along with six sample lessons.
