Wreford,2008-05-01 In the current model of health dispensation in South Africa there are two major paradigms the spirit inspired tradition of izangoma sinyanga and biomedicine These operate at best in parallel but more often than not are at odds with one another This book based on the author s personal experience as a practitioner of traditional African medicine considers the effects of the absence of spirit in biomedicine on collaborative relationships Given the unprecedented challenge of the HIV AIDS epidemic in the country the author suggests that more cooperation is vital Taking a critical look at the role of anthropology in this endeavor she proposes the development of a language of spirit by means of which the spirit inspired aetiology of izangoma sinyanga may be made comprehensible to academic scientists and applicable to medical interventions The author discusses white izangoma in the context of current debates on healing and hybridity and insists that there exists a powerful role for izangoma in the realm of societal healing Above all the book constitutes a start in what the author hopes will develop into an ongoing intellectual conversation between traditional African healing academe and biomedicine in South Africa Physical Media in Spiritual Manifestations George Whitefield Samson,1869 **WITCHCRAFT MODERN DAY**

Robert E. Butts,2013-03-09 Robert E Butts 1928 1997 was a philosopher and historian of science whose central concerns were the distinction between the rational and the irrational He viewed scientific rationality as our major defence against the various conditions that encourage witch hunts and similar outbursts of irrationality with all their attendant pain and terror Butts saw himself as a pragmatic realist combining what he took to be the best aspects of logical empiricism with a historically informed pragmatism deeply appreciative of the methods of science trying to describe a kind of rationality essential in the struggle to preserve human values This volume gathers previously unpublished essays and lectures with some previously published thematically related essays It includes essays and lectures on philosophical aspects of the European witch hunt on scientific rationality and methodology and on the relationships between science and philosophy exhibited in the writings of such historically significant figures as Leibniz D Alembert Hume Kant Carnap and Kuhn
