Economic War Maximilian Hess, 2025-04-17 Winner of the US Russia Relations Book Prize from the Fletcher School of Law and Diplomacy Tufts University Vladimir Putin's first invasion of Ukraine in 2014 set off a global economic clash as the West used its clout with international markets to deter and penalise the Kremlin The battlelines of this war by other means traversed a series of deep economic connections built up during Russia's oil gas and commodities boom global equity and capital markets and transnational kleptocracy Maximilian Hess's startling book lifts the lid on Russia's response to Western sanctions and the ensuing skirmishes in London's courts on Swiss trading desks and in boardrooms in New Delhi He explores how pipelines mines loans and crypto markets were weaponised This narrative sets the stage for Putin's all out assault on Kyiv in February 2022 which turned financial food and fuel markets into bona fide battlefields bringing the fight into everyone's home from Pennsylvania to Pakistan Rather than a new Cold War we are witnessing a conflict over finance energy and capital markets How such economic warfare turns out

Ghosts and Things Aviva Briefel, 2025-04-15 Ghosts and Things argues that Victorians turned to the dead to understand the material culture of their present With the rise of spiritualism in Britain in the early 1850s s ances invited participants to contact ghosts using material things from ordinary household furniture to specialized technologies invented to register the presence of spirits In its supernatural object lessons Victorian spiritualism was not just a mystical movement centered on the dead but also a practical resource for learning how to negotiate the uncanniness of life under capitalism Aviva Briefel explores how spiritualism compelled s ance participants to speculate on the manufacture of spectral clothing ponder the hidden histories and energies of parlor furniture confront the humiliations of consumerism as summoned spirits pelted them with exotic fruits and comprehend modes of mechanical reproduction like photography and electrotyping that had the power to shape identities Briefel argues that spiritualist practices and the objects they employed offered both believers and skeptics unexpected frameworks for grappling with the often invisible forces of labor consumption exploitation and exchange that haunted their everyday lives Ghosts and Things reveals how spiritualism s explorations of the borderland between life and death matter and spirit produced a strange and seductive combination of wonder and discomfort that allowed participants to experience the possibilities and precarities of industrial modernity in novel ways **"The" Illustrated London News** ,1873

Examiner ,1844 **The Examiner** ,1844 **Morning light [afterw.] The New-Church weekly** ,1881 *Within, Against, and Beyond Liberalism* David Blaney, Naeem Inayatullah, 2021-06-24 This book provides a generous immanent description of liberalism but also works against and looks beyond it It engages liberalism and its variants in IPE at a moment in time when liberalism and liberal internationalism are experiencing something of a crisis of confidence Though we are

deeply critical of liberalism especially the variant that dominates in IPE we picture liberalism as variegated and rife with doubt and tensions that potentially open it to traditions of thinking beyond itself We also show how these tensions and doubts often prompt attempts at closure in the form of defensive maneuvers like Eurocentric conceptions of development that justify Western dominance and the condemnation of scholarship that exposes relations of domination and subordination as violating the precepts of unit level positive science But recognizing these maneuvers as defensive reactions may help us grasp the moments of greater openness within liberalism that connect to traditions that think against and beyond its central tenets
