Wood, 1991-01-16 How to accurately estimate in advance the cost of producing products or services by means of the design to cost method which systematically constrains design goals according to available funds. This book shows how to use value engineering, cost estimating, and cost control to devise and adhere to realistic cost goals. Touches on techniques from management methods to specific engineering approaches and provides actual case studies of projects and services that have now become affordable through the application of the design to cost method. Cases on Optimizing the Asset Management Process González-Prida, Vicente, Márquez, Carlos Alberto Parra, Márquez, Adolfo Crespo, 2021-10-15 It is critical to improve the asset management system implementation as well as economics and industrial decision making to ensure that a business may move smoothly internally. Maintenance management should be aligned to the activities of maintenance in accordance with key business strategies which must be designed under the comprehensive approach of an asset management process. After transforming the priorities of the business into priorities of maintenance, maintenance managers will use their medium team strategies to tackle potential weaknesses in the maintenance of the equipment in accordance with these objectives. Cases on Optimizing the Asset Management Process explains and summarizes the processes and the reference frame necessary for the implementation of the Maintenance Management Model (MMM). This book acts as an overview of the current state of the art in asset management, providing innovative tools and practices from the fourth industrial revolution. Presenting topics like criticality analysis, physical asset maintenance, and unified modelling language, this text is essential for industrial and manufacturing engineers, plant supervisors, academicians, researchers, advanced level students, technology developers, and managers who make decisions in this field. **Issues in NASA Program and Project Management**, 1992 **Program Manager**, 1996 *Management, a Continuing Literature Survey with Indexes*, 1968 Management, 1986 *Water and Development - Volume I* Catherine M.
