Language and Mediated Masculinities
Robert Lawson, 2023 From television shows to the manosphere and from alt right communities to fatherhood forums debates about masculinity have come to dominate the media landscape What does it mean to be a man in contemporary society How is masculinity constituted in different media spaces This growing cultural tension around masculinities has been discussed and analyzed both for general audiences and in burgeoning academic scholarship What has been typically overlooked however is the role that language plays in these mediated performances of masculinity In Language and Mediated Masculinities Robert Lawson draws on data from newspapers social media sites television programs and online forums to explore language and masculinities across a range of media contexts The book offers a critical evaluation of the intersection between language masculinities and identities in contemporary society and addresses three key questions How are masculinities constructed in both public and private spheres through linguistic and discursive strategies How does language about masculinity and men affect and recreate gender ideologies in different social political and historical contexts What might the language of men tell us about the state of contemporary gender relations in the twenty first century Lawson furthers our understanding of how language is implicated in re creating gender ideologies and how it shapes contemporary gender relations Against a cultural backdrop of rising neoliberalism ethnic nationalism online radicalization networked

misogyny and fractious gender relations this book is an important contribution to charting how language is used to monitor evaluate and police masculinities in online and offline spaces
