Advanced Strategies Cli Fi Novel:

Cli-Fi and Class Debra J. Rosenthal, Jason de Lara Molesky, 2023-10-09 Since its emergence in the late twentieth century climate fiction or cli fi has concerned itself as much with economic injustice and popular revolt as with rising seas and soaring temperatures Indeed with its insistent focus on redressing social disparities cli fi might reasonably be classified as a form of protest literature As environmental crises escalate and inequality intensifies literary writers and scholars alike have increasingly scrutinized the dual exploitations of the earth s ecosystems and the socioeconomically disadvantaged Cli Fi and Class focuses on the representation of class dynamics in climate change narratives With fifteen essays on the intersection of the economic and the ecological addressing works ranging from the novels of Joseph Conrad Cormac McCarthy and Octavia Butler to the film Black Panther and the Broadway musical Hadestown this collection unpacks the complex ways economic exploitation impacts planetary well being and the ways climatic change shapes those inequities in turn

Rosenthal, 2024-04-26 Over the past several decades writers such as Margaret Atwood Paolo Bacigalupi Octavia E Butler and Kathy Jetn il Kijiner have explored climate change through literature reflecting current anxieties about humans impact on the planet Emphasizing the importance of interdisciplinarity this volume embraces literature as a means to cultivate students understanding of the ongoing climate crisis ethics in times of disaster and the intrinsic intersectionality of environmental issues Contributors discuss speculative climate futures the Anthropocene postcolonialism climate anxiety and the usefulness of storytelling in engaging with catastrophe The essays offer approaches to teaching interdisciplinary and cross listed courses including strategies for team teaching across disciplines and for building connections between humanities majors and STEM majors The volume concludes with essays that explore ways to address grief and to contemplate a hopeful future in the face of apocalyptic predictions

contemporary science fiction As a loosely connected set of cultural narratives the Cross the Plow and the Skyline have through the medium of science fiction and fantasy provided a bold vista on the future grounded in an emergent ecological imagination In the expanded second edition of the original 2001 publication the author argues that a significant shift has taken place in contemporary Anglo American science fiction and fantasy SF F from twentieth century SF F critically analyzed in the first edition s critical inquiry Avantgarde works in twenty first century speculative fiction extensively examined in representative works in interludes separating the slightly revised original chapters have become darker in their visions of the possible future more focused on slowness over breakneck speed more amenable to gender racial and global diversity in authorship plot and subgenre creation less attached to anchor concepts like the city wilderness and the domesticated landscape in plot development more prone to dystopian and critical dystopian tropes simultaneously more open toward but critical of Young Adult fiction and more supportive of the breakdown of borders and antagonisms between science fiction and fantasy and SF F and literary fiction Ensconced in the cultural social and political zeitgeist of the New Millennium s first two decades these features of twenty first century science fiction and fantasy may yet settle into and inform emergent and pluralistic varieties of ecological politics spreading across the globe and confronting the Earth s social and environmental crises of our times and coming decades
