Media Sensation Youtube Book Review:

The Richard & Judy Book Club Reader Helen Cousins, 2016-03-03 In January 2004 daytime television presenters Richard Madeley and Judy Finnigan launched their book club and sparked debate about the way people in Britain from the general reader to publishers to the literati thought about books and reading The Richard Judy Book Club Reader brings together historians of the book literature scholars and specialists in media and cultural studies to examine the effect of the club on reading practices and the publishing and promotion of books Beginning with an analysis of the book club's history and its ongoing development in relation to other reading groups worldwide including Oprah's the editors consider issues of book marketing and genre Further chapters explore the effects of the mass broadcast celebrity book club on society literature and its marketing and popular culture Contributors ask how readers discuss books judge value and make choices The collection addresses questions of authorship authority and canon in texts connected by theme or genre including the postcolonial exotic disability and representations of the body food books and domesticity In addition book club author Andrew Smith shares his experiences in a fascinating interview

Reorienting Chinese Stars in Global Polyphonic Networks Dorothy Wai Sim Lau, 2021-03-08 This monograph offers a cutting edge perspective on the study of Chinese film stars by advancing a linguaphonic model moving away from a conceptualization of transnational Chinese stardom reliant on the centrality of either action or body It encompasses a selection of individual personalities from the most iconic Bruce Lee Michelle Yeoh and Maggie Cheung to the not yet full fledged Takeshi Kaneshiro Jay Chou and Tang Wei to the newest Fan Bingbing Liu Yifei Wen Ming Na and Sammi Cheng who are exemplary to the star making practices in the designated sites of articulations This volume notably pivots on specific phonic modalities spoken forms of tongues manners of enunciation styles of vocalization as means to mine ethnic and ideological underpinnings of Chinese stardom By indicating a methodological shift from the visual based to aural based vectors it asserts the phonic as a legitimate bearing that can generate novel vigor in the reimagination of Chineseness By exhausting the critical affordability of the phonic this book unravels the polemics of visibility and aurality body and voice as well as onscreen personae and offscreen existence remapping the contours of the ethnic fame making in the global mediascape

Sounds as They are Richard Beaudoin, 2024 In *Sounds as They are* author Richard Beaudoin recognizes the often overlooked sounds made by the bodies of performers and their recording equipment as music and analyzes these sounds using a bold new theory of inclusive track analysis ITA In doing so he demonstrates new expressive interpretive and embodied possibilities and also uncovers insidious inequalities across music studies and the recording industry including the silencing of certain sounds along lines of gender and race

Leaders in Philosophy of Education Leonard J. Waks, 2014-11-26 In the late 1950s plans were initiated to bring a higher level of professionalism to the training of educational professionals New projects included introducing contemporary scholarship from the humanities and social sciences into colleges of education to revitalize the education knowledge base In North America and the United Kingdom

analytical philosophers were recruited to inaugurate a new philosophy of education Analytical philosophy of education soon spread throughout the English speaking world By the 1980s this analytical impulse had largely subsided Philosophers trained in analytical philosophy and their students turned to more ambitious normative pursuits related to problems of social justice and democracy Meanwhile feminist philosophers opened up new issues regarding the education of women and the nature of teaching and knowing and a new wave of pragmatist philosophers turned to issues of educational policy By the 1990s Anglo American philosophers of education welcomed a dialogue with counterparts in Western Europe and the field responded to established trends in European philosophy ranging from critical theory and phenomenology to post structuralism New leaders emerged in philosophy of education representing all of these various strands This volume documents the emergence of contemporary philosophy of education as seen by those spearheading these trends The Open Book Ninna

Meier,Charlotte Charlotte,2017-06-09 The Open Book is a radical genre blend it is an experimental co memoir exploring the role of writing in academia It contains stories about life without censoring and without distinguishing between traditional work life domains and academic non academic ways of writing This is done through discussions of conferences research collaborations supervision taboo pleasures of fun writing projects the temptations of other work and the everyday life encounters and experiences that stimulate academic thought and writing Some of the main characters you will meet are researchers their colleagues and students sons and daughters mothers and grandmothers husbands past and present supervisors pets old and new friends and creatures from myths and dreams Some of the settings include kitchens fireplaces couches gardens universities cars and trains These characters and places are all there to help examine what the above elements of an ordinary human life might mean in research and for research Thus it becomes possible for you as a reader to recognize the stories as both truly human and genuinely academic This is the first book in a series of publications and projects from the Open Writing Community a collaboration of academics from different disciplines and countries that seeks to push the boundaries of how we understand and practice academic work and writing Technocapitalism Loretta

Napoleoni,2024-04-16 A fascinating look at how the Space Barons and Tectitans heads of companies like Uber Amazon Tesla have hijacked technology preventing it from being used on behalf of the common good and profiting from the politics of fear and consumerism The respected Italian economist and journalist offers a bold and provocative argument that the speed of technological transformation is threatening our future At the dawn of the digital revolution the internet was going to be the great equalizer a global democratic force Instead with the money printed electronically to bail out banks Wall Street ended up funding a new breed of serial capitalists the Tectitans who embraced rapid transformational change while stripping their workers of rights and enriching themselves beyond anybody s wildest imagination and the Space Barons who mine new frontiers for precious resources Then came the gig economy another supposed digital equalizer where everybody was his or her own boss but it was just another illusion Tech pioneers like Google Facebook Apple Uber and Microsoft never

had any intention of spreading democracy Those who control and own the technology are the absolute masters As artificial intelligence enters the labor market companies like Uber are able to cut labor costs to the barest of minimums by squeezing workers privileges and rights In Technocapitalism Napoleoni describes these phenomena as the genesis of a new paradigm born in a period of extraordinary change in which the acceleration of transformational change has caused a dizzying anxiety induced paralysis from the FTX collapse to AI private space companies to the war in Ukraine from inflation to the dirty environmental truth of EV car batteries Technological transformation is occurring at a speed that is existentially unbearable for most of us We must fight for our common good to address today s real challenges of global warming and militarism and the soulessness of capitalist endeavor Napoleoni shows us how [The Oxford Handbook of Social Media and Music Learning](#) Janice L. Waldron, Stephanie Horsley, Kari K.
