Co-written by two widely recognized Twitter experts, *The Twitter Book* is packed with all new real-world examples, solid advice, and clear explanations guaranteed to turn you into a power user. Use Twitter to connect with colleagues, customers, family, and friends. Stand out on Twitter. Avoid common gaffes and pitfalls. Build a critical communications channel with Twitter and use the best third-party tools to manage it. Want to learn how to use Twitter like a pro? Get the book that readers and critics alike rave about.

Digital Propaganda Trends Michael Davis, 2025-02-21 *Digital Propaganda Trends* explores the pervasive influence of online manipulation on public discourse. It examines how misinformation, targeted advertising, and social media algorithms shape opinions and behaviors in unprecedented ways. Did you know that digital propaganda exploits cognitive biases like confirmation bias to make individuals more susceptible to manipulation? The book uniquely uses empirical evidence and case studies to cut through speculative claims and highlight verifiable trends in online influence. The book traces propaganda's evolution from traditional media to the digital realm, noting how the internet's speed and scale pose unique challenges. It emphasizes the threat sophisticated digital propaganda poses to informed democratic discourse. Sophisticated propaganda can erode trust in institutions, polarize societies, and undermine rational decision-making. With its combination of theoretical frameworks and practical examples, the book offers a nuanced understanding, making it valuable for anyone seeking to navigate the complexities of digital influence. Structured to progressively build understanding, the book first defines key concepts related to digital propaganda. It then details the tools and techniques employed in online manipulation, supported by case studies and empirical evidence, and culminates with policy recommendations. A major section analyzes the role of bots and artificial intelligence in spreading propaganda, while another analyzes countermeasures.

Inside Book Publishing Giles Clark, Angus Phillips, 2014-06-27 Now in its fifth edition, *Inside Book Publishing* remains the classic introduction to the book publishing industry, being both a manual for the profession for over two decades and the bestselling textbook for students of publishing. The book remains essential reading for publishing students, those seeking a career in publishing, recent entrants to the industry, and authors seeking an insider's view. The accompanying website supports the book by providing up-to-date and relevant content. This new edition has been fully updated to respond to the rapid changes in the market and technology. Now more global in its references and scope, the book explores the tensions and trends affecting the industry, including the growth of ebooks, self-publishing, and online retailing, and new business models and workflows. The book provides excellent overviews of the main aspects of the publishing process, including commissioning, product development, design, and production.
