African Solutions is a result of research into the policies programmes and experiences identified as best practices in the Country Review Reports CRRs of twelve countries published under the African Peer Review Mechanism APRM from Algeria Benin Burkina Faso Ghana Kenya Lesotho Mali Mozambique Nigeria Rwanda South Africa and Uganda The research was commissioned and coordinated by the Governance and APRM Programme of the South African Institute of International Affairs SAIIA To justify this inquiry they argued among others that with the APRM conceived a voluntary mechanism and in the absence of hard pressure for compliance incentives rather than sanctions could be the way to strengthen the APRM Thus the importance of best practices as templates and models for reform and as a counterbalance to the temptation to concentrate on what is not working in Africa In this book therefore best practices identified in the twelve CRRs are examined critically and methodically with a view to understanding how they are conceptualised within the APRM including their definition and how they are intended to be used to achieve the desired results how the items reported as best practices qualify to be regarded as such in the sense of being demonstrably better than the rest replicable and addressing APRM goals and how they can be strengthened for use as material from peer learning within the APRM and around the continent Back cover **DHHS Publication No. (OHDS).** ,19??
