The Natural Baby An Instinctive Approach To Nurturing Your Infant

Susan Moore, Doreen Rosenthal

The Natural Baby An Instinctive Approach To Nurturing Your Infant:

What Your Pediatrician Doesn't Know Can Hurt Your Child Susan Markel, Linda F. Palmer, 2010-10-12 Sometimes doctors don't know best. Luckily, mom and doctor Susan Markel is a pediatrician who questions conventional wisdom and instead partners decision-based medicine with the best ideas of attachment parenting. Too often, parents ignore their instincts and better sense to follow their doctor's advice such as overtreating vulnerable children, letting babies cry themselves to sleep, and giving their children cow's milk for strong bones, even though strong evidence shows none of these practices is the best route. Revealing the medical industry's gaps in knowledge is Dr. Susan Markel, frequent contributor to BabyCenter.com, the world's most popular parenting site and Le Leche League International medical liaison, and Linda F. Palmer, D.C., author of *Baby Matters*. In *What Your Pediatrician Doesn't Know Can Hurt Your Child*, this new work combines the latest research with solid advice from a pediatrician who dares to defy her rote education and big industry-supported dogma and seek out parent and child-centered choices in all aspects of child care. As a mother and a pediatrician with 27 years experience, Dr. Markel has come to find that less intervention in the natural processes generally brings superior outcomes. While providing helpful how-to natural parenting ideas throughout, *What Your Pediatrician Doesn't Know Can Hurt Your Child* gives parents insight into many instances where standard pediatric dogma is in conflict with the best research. Parents will find comprehensive solutions to specific health concerns and issues affecting children such as Nutrition including breastfeeding, Shared sleep, Common illnesses and drug usage, Allergies and asthma, Attention deficit disorder, Emotional health, Discipline. In a reader-friendly, succinct format not bogged down by scientific digressions, this book will assist parents in making the best possible choices for the mental and physical health of their children.

Nurture the Nature Michael Gurian, 2009-01-26 From Michael Gurian, the best-selling author of *The Minds of Boys* and *The Wonder of Girls*, comes the next step book that shows how any parent can tune into a child's unique core personality, hard wiring, temperament, and genetic predisposition in order to help that child flourish and thrive. Based on the most recent brain research, *Nurture the Nature* features the Ten Tips for Nurturing the Nature of Your Baby, self-tests, checklists, and many other tools for you to help your kids get exactly the kind of support they need from infants to adolescents. While offering positive ideas for nurturing your child, Gurian also shows how to avoid the stress pressures and excessive competition of what he identifies as social trends parenting. Most parents know instinctively that their child is unique and has special potential, weaknesses, and strengths. No child is a blank slate. Gurian calls on parents to turn away from one-size-fits-all approaches and instead support the individual core nature of a child with effective and customized loving care.

Why You Shouldn't Stress About Baby Feeding Milestones Aurora Brooks, 2023-09-07 Are you a new parent feeling overwhelmed by the pressure to meet baby feeding milestones? Look no further. *Why You Shouldn't Stress About Baby Feeding Milestones* is the ultimate guide to help you navigate this challenging phase with ease and confidence. Sexual Mutilations George C. Denniston, Marilyn Fayre Milos, 2013-03-09 Sexual mutilation is a global problem that affects 15 3 million children and young adults annually In terms of gender 13 3 million boys and 2 million girls are involuntarily subjected to sexual mutilation every year While it is tempting to quantify and compare the amount of tissue removed from either gender no ethical justification can be made for removing any amount of flesh from the body of another person The violation of human rights implicit in sexual mutilation is identical for any gender The violation occurs with the first cut into another person s body Although mutilation is a strong term it precisely and accurately describes a condition denoting any disfigurement or injury by removal or destruction of any conspicuous or essential part of the body While such terms as circumcision and genital cutting are less threatening to our sensitivities they ultimately do a disservice by masking the fact of what is actually being done to babies and children Although the courageous example of the survivors of sexual mutilation indicates that humans can certainly live and even reproduce without all of their external sexual organs

this biological phenomenon does not however justify subjecting a person to sexual mutilation The remarkable resilience of the human body is a testament to the importance nature places on reproduction rather than a vindication for surgical practices that compromise this function The Art of Breastfeeding La Leche League International, Bibiana Moreno Carranza, Jayne Joyce, Anna Swisher, Teresa Pitman, 2024-10-15 For many years La Leche League has set the standard for supporting families with breastfeeding This new edition of their classic bestseller brings generations of wisdom to today's parents with up to date information new illustrations and stories from mothers fathers and grandparents around the world who share their own experiences What's inside Why breastfeeding matters Getting started how to learn your baby's feeding cues and positions to try Life with your breastfed baby Managing common challenges includes new research Going back to work expressing and storing your milk Sleep and how to get more of it starting family foods and weaning Whether you're planning to breastfeed for a few weeks or a few years this book puts all the information at your fingertips ready to help you when you need support at any point on your breastfeeding journey Whether you read the whole book from cover to cover or dip in and out as you need to you'll find everything you need in this indispensable volume that has supported countless mothers to breastfeed their babies Formerly published as *The Womanly Art of Breastfeeding* **Second Child: Essential Information and Wisdom to Help You Decide, Plan and Enjoy** Susan Moore, Doreen Rosenthal, 2022-08-09 From changes in workload sibling rivalry money and relationship issues to health and well being an addition to your family raises questions challenges and emotions Offering a practical and reassuring guide this book provides the tried and tested expert advice supplemented with the voices of parents and children to help you successfully navigate the difficult decision of welcoming a second child A trusted companion for parents alike feel positive prepared and excited about your new family with *Second Child: Essential Information and Wisdom to Help You Decide, Plan and Enjoy* Doreen Rosenthal PhD born 1938 is an Australian academic researcher specialising in adolescent sexual and women's health In 2020 Rosenthal was appointed Professor Emerita in the School of Population Health at La Trobe University and Honorary Professor in the Melbourne School of Population and Global Health at the University of Melbourne Her research spans studies of homeless young people drug use and HIV risk along with women's sexual health Her recent self-help books include *The Psychology of Family History Exploring our Genealogy* and *Second Child: Essential Information and Wisdom to Help You Decide, Plan and Enjoy* She provides expert advice with a reassuring human touch Susan Moore was born in Melbourne and is a university researcher and Fellow of the Australian Psychological Society She has co-authored several books articles in newspapers magazines and journals Many with a focus on life span developmental issues particularly the psychology of adolescence and risk taking She has worked as a psychologist and researcher in universities and schools for over 40 years and is now semi-retired She has a daughter stepdaughter and stepson as well as three primary school aged grandchildren **Parenting Your Premature Baby and Child** Deborah L.
