

The background of the book cover is a high-magnification, false-color aerial photograph of a complex integrated circuit (IC) die. The die is rectangular and filled with a dense, intricate pattern of circuitry. Various functional blocks are highlighted in different colors: large rectangular areas in bright green and red, and a prominent diagonal strip in purple and blue. A network of fine, light-colored lines represents the interconnects between these blocks. The overall image has a technical, high-contrast appearance typical of semiconductor manufacturing photography.
