## **The New Downtown Library Designing With Communities:**

**The New Downtown Library** Shannon Christine Mattern, 2007 The past twenty years have seen a building boom for downtown public libraries From Brooklyn to Seattle architects civic leaders and citizens in major U S cities have worked to reassert the relevance of the central library While the libraries primary functions as public spaces where information is gathered organized preserved and made available for use have not changed over the years the processes by which they accomplish these goals have These new processes and the public debates surrounding them have radically influenced the utility and design of new library buildings In *The New Downtown Library* Shannon Mattern draws on a diverse range of sources to investigate how libraries serve as multiuse public spaces anchors in urban redevelopment civic icons and showcases of renowned architects like Rem Koolhaas Cesar Pelli and Enrique Norton Mattern s clear and careful analysis reveals the complexity of contemporary dialogues in library design highlighting the roles that staff the public and other special interest groups play Mattern also describes how the libraries manifest changing demographics new ways of organizing collections and delivering media and current philosophies of librarianship By identifying unifying themes as well as examining the differences among various design projects Mattern brings to light the social forces as well as their architectural expressions that form the essence of new libraries and their vital place in public life Featured libraries are located in Brooklyn Cincinnati Cleveland Chicago Denver Los Angeles Minneapolis Nashville New York Phoenix Salt Lake City San Antonio San Francisco Seattle and Toledo Shannon Mattern is assistant professor of media studies and film at The New School

*Public Libraries and Resilient Cities* Michael Dudley, 2013 Public libraries are keystone public institutions for any thriving community and as such can be leaders in making cities better places to work play and live Here Dudley shows how public libraries can contribute to placemaking or the creation and nurturing of vital and unique communities for their residents

**Reading Workplace Dynamics** Vanessa Irvin, Bharat Mehra, 2024-08-01 Reading Workplace Dynamics offers a renewed ethos for public librarianship synthesizing frontline practitioner outcomes with scholarship via a blend of chapters presenting innovative and bold testimony on ways in which COVID 19 forever changed public librarianship

*Public Libraries in the Smart City* Dale Leorke, Danielle Wyatt, 2018-10-10 Far from heralding their demise digital technologies have lead to a dramatic transformation of the public library Around the world libraries have reinvented themselves as networked hubs community centres innovation labs and makerspaces Coupling striking architectural design with attention to ambience and comfort libraries have signaled their desire to be seen as both engines of innovation and creative production and hearts of community life This book argues that the library s transformation is deeply connected to a broader project of urban redevelopment and the transition to a knowledge economy In particular libraries have become entangled in visions of the smart city where densely networked ubiquitous connectivity promises urban prosperity built on efficiency innovation and new avenues for civic participation Drawing on theoretical analysis and interviews with library professionals policymakers and

users this book examines the inevitable tensions emerging when a public institution dedicated to universal access to knowledge and a shared public culture intersects with the technology driven entrepreneurialist ideals of the smart city

Take One Building : Interdisciplinary Research Perspectives of the Seattle Central Library Ruth Conroy Dalton, Christoph Hölscher, 2016-11-25 This book evaluates how we experience and understand buildings in different ways depending upon our academic and professional background With reference to Rem Koolhaas Seattle Central Library the book illustrates a range of different methods available through its application to the building By seeing such a variety of different research methods applied to one setting it provides the opportunity for researchers to understand how tools can highlight various aspects of a building and how those different methods can augment or complement each other Unique to this book are contributions from internationally renowned academics from fields including architecture ethnography architectural criticism phenomenology sociology environmental psychology and cognitive science all of which are united by a single real world application the Seattle Central Library This book will be of interest to architects and students of architecture as well as disciplines such as ethnography sociology environmental psychology and cognitive science that have an interest in applying research methods to the built environment

**Libraries of Light** Alistair Black, 2016-10-04 For the first hundred years or so of their history public libraries in Britain were built in an array of revivalist architectural styles This backward looking tradition was decisively broken in the 1960s as many new libraries were erected up and down the country In this new Routledge book Alistair Black argues that the architectural modernism of the post war years was symptomatic of the age s spirit of renewal In the 1960s public libraries truly became libraries of light and Black further explains how this phrase not only describes the shining new library designs with their open plan decluttered Scandinavian inspired designs but also serves as a metaphor for the public library s role as a beacon of social egalitarianism and cultural universalism A sequel to *Books Buildings and Social Engineering* 2009 Black s new book takes his fascinating story of the design of British public libraries into the era of architectural modernism

*The Thriving Library* Marylaine Block, 2007 Here is a highly readable guide to strategies and projects that have helped over 100 public libraries gain community support and funding during challenging times Marylaine Block integrates survey responses from innovative library directors with her research analysis and extended interviews to showcase hundreds of winning programs and services The strategies explored include Youth Services The Library as Place Partnerships Marketing Stressing the Economic Value Library 2.0 Outreach and Helping the Community Achieve Its Aspirations Projects are described in practitioners own words with additional examples drawn from libraries long range plans annual reports programs and Web sites as well as from news stories and library literature The result is a rich source of ideas and inspiration for those who want their libraries to thrive not merely survive Supported by the author s Web page

**The Urban Library** Julia Nevárez, 2020-12-04 This book examines the role history and function of public libraries in contemporary societies as motors that drive development It analyses through case studies how contemporary libraries have

been redesigned to offer a new kind of public space while also reshaping neglected areas in cities. Broadly understood, the book seeks to comprehend contemporary library design, urban development, and the revitalization of specific urban areas. Important and world famous architects star architects have designed signature architecture in the contemporary libraries selected for this volume. The examples to be showcased in the book include the main Seattle Public Library, Salt Lake City Public Library, New York Public Library, Spain Library, Medellin, Colombia, Halifax Central Library, Nova Scotia, Canada, and Library of Alexandria in Egypt, to offer examples of what constitute the approach to libraries and urban development in many cities around the world nowadays. Data in the form of interviews to library directors, librarians, and users, tours of libraries, visual documentation, and archival research have been collected for most public libraries included as case studies for the book. The impulse to archive has been framed and understood in the literature as a modern desire to control fleeting reality. Libraries, as such, respond to this desire by collecting, storing, and circulating resources, books, and other kinds of media. But more recently, there has been an emphasis on the public character of library spaces in which people gather not only to obtain information and read by themselves but also to experience the very urban quality of proximity to others in more informal and less structured environments, as public space. Community events characterize the programming of all the libraries included in the book. The design of these new libraries fits into urban development initiatives where libraries, like other iconic cultural spaces of cities, become central components to market cities for the consumption of culture. Libraries become sites to be visited and explored by tourists while providing services for residents. They are also machines to accelerate urban development, especially in areas previously neglected by development.

**Designing Healthy Communities** Richard J. Jackson, 2011-09-19. *Designing Healthy Communities*, the companion book to the acclaimed public television documentary, highlights how we design the built environment and its potential for addressing and preventing many of the nation's devastating childhood and adult health concerns. Dr. Richard Jackson looks at the root causes of our malaise and highlights healthy community designs achieved by planners, designers, and community leaders working together. Ultimately, Dr. Jackson encourages all of us to make the kinds of positive changes highlighted in this book. 2012 Nautilus Silver Award Winning Title in category of Social Change. In this book, Dr. Jackson inhabits the frontier between public health and urban planning, offering us hopeful examples of innovative transformation and ends with a prescription for individual action. This book is a must read for anyone who cares about how we shape the communities and the world that shapes us. Will Rogers, president and CEO, The Trust for Public Land. While debates continue over how to design cities to promote public health, this book highlights the profound health challenges that face urban residents and the ways in which certain aspects of the built environment are implicated in their etiology. Jackson then offers up a set of compelling cases showing how local activists are working to fight obesity, limit pollution exposure, reduce auto dependence, rebuild economies, and promote community and sustainability. Every city planner and urban designer should read these cases and use them to inform their everyday practice. Jennifer Wolch, dean

College of Environmental Design William W Wurster Professor City and Regional Planning UC Berkeley Dr Jackson has written a thoughtful text that illustrates how and why building healthy communities is the right prescription for America Georges C Benjamin MD executive director American Public Health Association Publisher Companion Web site [www.josseybass.com/go/jackson](http://www.josseybass.com/go/jackson) Additional media and content <http://dmc.mediacenter.org> *Library Services for Children and Young People* Carolyn Rankin, Avril Brock, 2012-11-23 A vision for children's library services in the next decade This book provides a sound background to all aspects of library provision for 6-18 year olds It is designed to support the strategic planning and delivery of library services and programmes at a local community level or in schools The book outlines a vision for children's library services in the next decade and carves out a strategy for engaging with the challenges and opportunities for children's librarians and policy makers in the Google environment This book is accessible informative and inspiring and offers practitioners the knowledge ideas and confidence to work in partnership with other key professionals in delivering services and programmes It provides an evidence base which promotes and encourages the development of effective library services for children and young people The case studies scenarios and vignettes drawn from UK and international sources show that the key issues have an international dimension and the similarities and differences in service provision will be of interest to many In addition to the two editors chapters are contributed by a range of internationally known practitioners and academics offering a wide perspective Case studies at the end of each section complement themes and practices from previous chapters while rooting the discussion in a specific context The book is organized into four parts Children's library services policy people and partnerships Connecting and engaging reaching your audience and catching the latest wave acknowledging the role of technology Buildings design and spaces libraries for children and young people Issues for professional practice Readership This book is essential reading for all senior library practitioners children's librarians and school librarians subject coordinators and managers in schools It will also be of value for all postgraduate students on CILIP accredited library and information management courses
